## WILSON SPEAKS IN METROPOLIS

HIS FIRST NEW YORK POLITICAL  
SPEECH AT WORKINGMEN'S  
DOLLAR DINNER.

## GIVES TARIFF POSITION

Declares He Is Opposed to the Regu-  
lation of Monopolies by a Fed-  
eral Commission.

By The Associated Press.

New York, Sept. 4.—Gov. Woodrow Wilson spoke for the first time tonight in New York City as the democratic nominee for the presidency. His first political address in the metropolis was delivered at the dollar dinner of the Woodrow Wilson Workingmen's league.

Before going to the dinner he met two-score editors of foreign language newspapers at the National Arts club and talked immigration to them.

"If we can hit upon a standard which admits every voluntary immigrant," he said, "and excludes those who have not come of their own motion with their own purpose of making a home and a career for themselves, but have been induced by the steamship companies or others to come in order to pay the passage money, then we will have what we will all agree upon as Americans."

At the workingmen's dinner, Governor Wilson said, in part:

Views on the Tariff.

"One of the reasons why I am opposed to an exaggerated protective policy is that it is a choosing before-hand to be provincial and to have as little to do with the rest of the world as possible. I hear a great deal nowadays about the danger of free trade. There are circumstances in this country which render it absolutely impossible in our time, I dare say, that we should have free trade. We have so divided the sphere of taxation, both by principle and by practice, between the federal and the state governments, that direct taxation is almost exclusively reserved for the state governments and indirect taxation is the chief resource of the federal government; and the indirect taxes which we would not pay, if we knew we were paying them, are chiefly paid at the custom houses.

Kick on Customs Duties.

"If you want to be certain that we would not pay them if we knew we were paying them, watch the people who come back from Europe and go through the custom houses. They are the most indignant and, from the point of view of some of my compatriots, the most unpatriotic Americans imaginable because they kick like steers against the payment of the duties, because they then and there consciously and visibly are paying them out of their own pockets; and there would be a very different customs policy in this country if everybody consciously and visibly paid the customs duties out of his own pocket directly into the hands of an officer of the government.

"So that when people talk to you about the danger of free trade do not be afraid that you will meet a free trader in the dark anywhere, because there is not any free trader who can get abroad in America at present. All that we are considering, therefore, in considering the policy of protection, is relative to freedom in trade."

Regulation of Monopolies.

The governor reiterated his opposition to a federal commission to regulate monopolies. He said there was no body of men who knew enough to tell the country what the processes of industry should be.

The governor will return to Niagara early tomorrow.

NO DANGER OF PLAGUE.

Galveston, Tex., Sept. 4.—Dr. Donald H. Currie, of the United States public health and marine hospital service, and an expert on bubonic plague, who has been in Galveston for one month assisting in the inauguration of methods to prevent any possible appearance of the disease in Texas left today for his headquarters in San Francisco. He declares that with the regulations now in force and others soon to be inaugurated there is no danger of the introduction of the plague at this port. During his stay here he examined a number of rats and found no traces of the plague. The campaign for the destruction of rats is being vigorously waged.

FOR AN INTERURBAN.

Greenville, Tex., Sept. 4.—A. R. Nicholson, promoter of the Blue Ridge interurban line, has closed a contract for the steel, timber and concrete work on the interurban and expects to close the work on the 12 miles from Anna Blue Ridge by October 15th, and will then start grading towards Greenville.

TYPHOON IN CHINA.

Amoy, China, Sept. 4.—A typhoon last Thursday destroyed many streets in the city of Amoy, capital of Formosa, and devastated the northern districts of the island. The tea crop was not seriously damaged.

## AMERICANS TO AID FEDERALS

FOREIGNERS IN CANANEA PRE-  
PARE TO DEFEND TOWN  
AGAINST ATTACK.

## GARRISON IS INCREASED

Rebels Remain in Nearby Mountains  
and Will Not Move Until Suf-  
ficient Forces Are Mustered.

By The Associated Press.

Cananea, Mex., Sept. 4.—Anxiety for the safety of Cananea was relieved today by the arrival of 400 federal infantry and 100 cavalrymen, making the Mexican garrison here more than 600 armed men. Train service between Cananea and Naco was resumed today. Rebels congregating in the adjacent mountains were expected to attack when their numbers were sufficiently augmented.

It was not thought possible they could make any impression on the combined federal forces and the Americans, who have armed themselves. A request was sent to Washington today that 500 rifles be sent to the Americans here.

Cheche Campan and Francisco del Toro, at the head of 1300 rebels, have left the Sahaguna and Alamos districts in Sonora and crossed into the state of Sinaloa. Colonel Giron and a force of federals is in pursuit of the rebels, who are making their way up the Sonora river. He arrived at Baviore Sunday.

Word was received tonight that several hours at Aguas Calientes Saturday, the federal forces being victorious. Ten rebels were killed and many wounded. The federal loss was not reported.

An aged woman arrived from Bacoachi today to appeal to the federal commander in behalf of her two daughters who were taken away by the rebels after they had looted the town Monday.

ARRESTED AS REBEL SPY.

Naco, Sonora, Sept. 4.—Gen. Alexander Vega, claiming to be a rebel officer, well armed and having plenty of money, was arrested today as a spy and is now in jail. He claims to have been with Colonel Campa at Villa Verde several days ago when that rebel leader made a sortie through the Cananea district. Mexican officials refused to accept his statement that his mission was one of peace.

YAGUIS MEET HUERTA.

Juarez, Sept. 4.—General Augustin Sanchez, with an escort of 50 Yaqui Indian warriors, arrived today to confer with General Huerta, federal commander of the zone. The rebel bands menacing the railway southwest will be combated by General Sanchez with the 900 Indians at present stationed at the railway.

TO FORTIFY JUAREZ.

Juarez, Mex., Sept. 4.—Recognizing the strategic importance of this point inland gateway to Mexico, the federal government has decided to fortify the town of Juarez with light and heavy artillery. It is also planned to erect forts and sunken fortifications on the outskirts of the town. Colonel Rubio Navarrete, commander-in-chief of artillery of the Mexican army, is here to perfect plans for the town's permanent fortifications.

TROOPS TO PRESIDIO.

El Paso, Tex., Sept. 4.—E. Z. Steever has ordered a troop of cavalry from Fort Clark, Tex., to presidio to preserve order among the 400 Mexican refugees who fled to the Texas side when the rebels took Ojinaga yesterday. There is fear that the refugees might loot some of the stores.

STRIKE IS IMMINENT.

Chicago Street Car Employees Deliver Ultimatum.

Chicago, Sept. 4.—Chicago again is threatened with a strike of the 14,000 employees of the street car lines. Unless a method of arbitration is agreed upon tomorrow it is said that a strike may be ordered at any moment. The union's committee walked out of a conference with the surface railway heads today after delivering an ultimatum that unless the company agreed on a plan of arbitration within 24 hours, negotiations would be discontinued.

The elevated road employees today voted to reject the compromise offer made by the companies. An effort will be made to settle the dispute by arbitration.

BASE DROWNS IN CISTERN.

Snyder, Tex., Sept. 4.—The ten-month-old babe of J. E. Hollis at Snyder, fell into a cistern yesterday and was drowned.

## PRESIDENT HAS THE GOUT

HE ALSO SUFFERS FROM A  
SPRAINED ANKLE.

By The Associated Press.

Washington, Sept. 4.—Though suffering from a sprained ankle and a slight attack of gout, President Taft tonight decided to not change his plans to go to New York to join Mrs. Taft on the Mayflower.

The president remained in his apartments most of the day, leaving them only to welcome to Washington the delegates to the Congress of Applied Chemistry.

It was learned the president would leave for New York tomorrow at 10 o'clock. Owing to his injury it is probable that the plan to board the Mayflower in the North River will be changed, the president going to meet the yacht at the Brooklyn navy yard instead.

The president planned to go to New London, Conn., on the Mayflower to address the Atlantic Deep Waterways convention Friday. There is some prospect that this engagement will be cancelled, owing to the condition of his ankle, but this had not been determined tonight. Major Rhodes, who is attending the president, said tonight that Mr. Taft's injury was not serious, and that a week's rest at Beverly would put him on his feet again.

BRYAN SCORES OPPONENTS

CONSIDERS GOV. JOHNSON THE  
STRONGEST PROGRESSIVE.

The Commoner in First Speech of the  
Present Campaign Talks Two  
Hours in Lincoln.

By The Associated Press.

Lincoln, Neb., Sept. 4.—William J. Bryan in his first speech of the present campaign in the vast auditorium at the fair grounds tonight for two hours held his audience while he scored Roosevelt and Taft and declared that Governor Johnson was the biggest man in the progressive party. The speaker's objection to Taft was that he is too distrustful of the people and that Roosevelt is too distrustful of himself. He had never known a man, the speaker said, who has such overpowering confidence in himself.

"Mr. Roosevelt," Mr. Bryan continued, "is now claiming to be the leader in the progressive movement, when his progressive convictions are only two years old. Mr. Roosevelt's speeches on the income tax question are like the visits of angels—few and far between. He has only favored the initiative and referendum for two years, and five years ago he sent Mr. Taft to Oklahoma to talk against this reform. Roosevelt is for railroad regulation by the federal government, but was not so until after 1904 and after two democratic platforms had declared for it."

Mr. Bryan said Roosevelt's position on the trust question "is farther from right than Mr. Taft's," and expressed the belief that it is in Mr. Roosevelt's purpose to put corporations under the direct control of the president, so that they will be compelled to support him thereafter in the effort to perpetuate his power.

SUFFRAGETTES CUT WIRES.

Hartford, Eng., Sept. 4.—Suffragettes cut 14 government telegraph wires near here a few nights ago and left a notice tacked on to one of the poles stating that the damage was done because of the government's attitude toward the woman suffrage movement. The offenders have not been discovered. The incident became public today. The guard of a mail coach declared that he saw the women, climbing the telegraph poles on the night of the occurrence.

PEACHES FROM BOWIE, TEXAS.

Bowie, Tex., Sept. 4.—Over 150 cars of peaches were shipped out of this vicinity this season. The Early Wheeler peach lead all other varieties, over 45 cars of this product being transported. The prices have been rather low, but the large volume brought the growers a good profit.

CHOLERA IN CAGLIARI.

Washington, Sept. 4.—A fresh outbreak of cholera in Cagliari, in Southern Sardinia, was reported today to the public health service. Officials regard the outbreak a dangerous one and have ordered quarantine at all United States ports against ships from the infested districts.

DALLAS BUILDING PERMITS.

Dallas, Tex., Sept. 4.—The building permits issued during the month of August in this city reached a total of \$323,099. The total permits issued during the last week in the month was \$313,745.

SHERMAN COLLEGE OPENS.

Sherman, Tex., Sept. 4.—The North Texas college opened here today with an enrollment of 600 young women, 450 of whom were present at the opening.

## TRAIN ROBBER IS CAPTURED

NERVY L. AND N. ENGINEER  
FELLS LONE BANDIT WITH  
BLOW FROM TORCH.

By The Associated Press.

New Orleans, Sept. 4.—A lone train bandit held up the northbound express of the Louisville & Nashville Railway at 8:30 o'clock tonight near Michoud, twelve miles from here, looted the mail car, robbed the passengers in five Pullmans and a club car and then, just as he was about to leave the tender, was struck over the head with a torch by Engineer Baer and captured. He was taken to Ray St. Louis and may die.

The booty, except for one mail bag thrown from the train, was recovered. The bandit would give no name.

The Louisville & Nashville express that left here at 8 o'clock was about two and a half miles from Michoud, a small station in the swamps, when the bandit appeared on the tender, covered Engineer Baer and the fireman with a revolver and forced them to leave the train. He then drove there one mail bag off, secured some registered letters and continued his march into the Pullmans. One after another he went through the cars and while the passengers held up their hands and the engineer and fireman preceded him, he took his toll from the travelers and put it into a small valise. He took nothing but money.

Caught off His Guard.

After securing his loot, the lone bandit drove the engineer and fireman back to the tender and made them again start the train. His plan was to have them drop him off after they left the swamps. But Engineer Baer, watching his opportunity, caught him off his guard and knocked him senseless with a heavy brass torch.

With the bandit disposed of, train crew and passengers were quickly in action. Superintendent Marshall, of this division of the road, a passenger on the train, had the robber's booty returned to the passengers. It amounted to only about \$100.

The train was run into Ray St. Louis where the bandit was put in charge of L. and N. surgeons. He refused to give his name and later became delirious. He is not expected to live.

Though but one bandit went through the train, it is believed that others were concerned with him. The police are still investigating.

Three train robbers made an abortive attempt last night to hold up and rob the New Orleans and Cincinnati passenger train No. 1 on the Louisville and Nashville railroad near Michoud. The robbers, who had gone to the lonely scene in the swamps in an automobile and who were plentifully supplied with high explosives, made the mistake of holding up a freight train which was running fifteen minutes ahead of the passenger train, and thereupon abandoned the attempted robbery.

## WARSHIP CREWS MUTINY

BLACK SEA SQUADRON BOM-  
BARDS SEBASTOPOL FORTS.

One of Attacking Vessels Reported to  
Have Been Sunk by the Heavy  
Gun Fire.

By The Associated Press.

London, Sept. 4.—A private telegram from Sebastopol reports a mutiny of the crews of the Black Sea squadron, according to the Constantinople report of the Chronicle. The warships bombarded the forts, which replied vigorously and sank one of the attacking vessels. The heavy gun fire continued as the dispatch left.

It is stated that one cruiser escaped and reached Burgas, Bulgaria. No confirmation of this report has reached here from other sources.

LOCAL TEMPERATURE.

Daily temperatures, furnished by Dr. Block, voluntary weather observer, for twenty-four hours ending Wednesday at 7 p. m.: Minimum, 73, maximum 99, barometer reading 30.06.

Government Prediction.

By The Associated Press.

Washington, Sept. 4.—Forecast: East Texas—Generally fair for Thursday and Friday; moderate south winds.

West Texas—Generally fair for Thursday and Friday.

Oklahoma—Generally fair Thursday and Friday; not much change in temperature.

## HAYES IS TO BE TRIED

DEMOTED POLICE INSPECTOR  
"SQUEALS" TO PROSECUTOR.

By The Associated Press.

New York, Sept. 4.—Cornelius G. Hayes, the demoted police inspector who is to go to trial Friday for making an alleged false statement concerning his police duties in connection with the raiding of disorderly houses, will be a witness, it was learned tonight, at the "John Doe" hearings to investigate police corruption. Hayes, who was in secret conference last night with District Attorney Whitman, is known already to have given startling information and it is understood he is ready to give more, provided certain conditions in the power of the district attorney to grant are complied with.

Hayes, it became known tonight, sought the conference with District Attorney Whitman chiefly to find out whether it was the intention of the prosecutor to seek his indictment in connection with the pending graft inquiry.

The demoted inspector was frankly told by Mr. Whitman that he had in possession evidence against him which he proposed to present to the grand jury.

GRAND JURY TO MEET.

By The Associated Press.

Albany, N. Y., Sept. 4.—After a conference with legal advisers, Governor Dix denounced that he had designated October 7 for the convening of the extraordinary grand jury and that he had re-designated Supreme Court Justice Goff to preside.

## ONE GREAT WATERWAY

STANDARDIZATION IN DEPTH OF  
CANALS IS ADVOCATED.

Congressman Small Unfolds Plan at  
Convention of the Atlantic Deep  
Waterways Association.

By The Associated Press.

New London, Conn., Sept. 4.—The standardization in depth of all canals along the Atlantic seaboard was advocated amid much enthusiasm on the part of the delegates by Congressman John H. Small, of North Carolina, this afternoon in his address to the Atlantic Deep Waterways' convention at its fifth annual convention. Mr. Small said that while his state was to receive the first benefits of the movement for deeper waterways, it would work just as energetically for consummation of a plan which would link into one great waterway the 143 harbors and rivers which indent nearly 7000 miles of the coast. The great plan to be sought, he believed, was to make every such city and town communicable for water-borne traffic, each with the other. By water-borne traffic he thought the present high costs may be cut down.

The standardization of depth of intra-coastal, the congressman held, would enable the craft to ply in the smaller waterways without breaking cargoes. To speakers who had pointed out that congress is slow in constructing intra-coastal waterways, Mr. Small replied:

"Why haven't the people, through public sentiment, demanded these waterways?"

He added that legislators and congressmen are of the same common clay as other people. They have granted favors to the interests that have demanded them while great improvements have not been granted, even if they were for the public good, because those behind those movements have been inert.

PYTHIANS MEET IN BEAUMONT.

By The Associated Press.

Beaumont, Tex., Sept. 4.—The grand chancellor district meeting of the Knights of Pythias convened here this afternoon at 3:30 o'clock in the Knights of Pythias hall, the meeting being the annual school of instruction in the secret work of the order. Grand Chancellor Charles F. Wendland of Dallas, is presiding. Ten lodges in all will be represented by delegates. Henry Miller of Weatherford, grand keeper of the records and seal, is here.

WILL NOT ASK FOR REPEAL.

By The Associated Press.

Austin, Tex., Sept. 4.—President John T. Stone, of the Maryland Casualty company, has asked Commissioner of Insurance and Banking Gill to recommend the repeal of the resident agent insurance act. The state insurance official regards this as one of the most valuable insurance laws and says he will make no such recommendations.

ROAD TO BEGIN OPERATIONS.

By The Associated Press.

Austin, Tex., Sept. 4.—The railroad commission was today notified that the San Antonio, Uvalde and Gulf railway will be in operation from San Antonio to Pleasanton in Atascosa county September 8. This line already runs from Uvalde through Crystal City to Gardendale and is heading for the coast.

## STANDPATTERS GO TO WILSON

ROOSEVELT SAYS REACTION-  
ARIES ARE SUPPORTING DEM-  
OCRATIC CANDIDATE.

By The Associated Press.

Des Moines, Ia., Sept. 4.—Upon Woodrow Wilson the hopes of the standpatters are gradually being centered. Colonel Roosevelt told the state progressive convention of Iowa today. He asserted that the reactionaries of both parties were now turning to the democratic candidacy. Colonel Roosevelt also called for speedy downward revision of the tariff and denounced the Payne-Aldrich tariff law as containing "shams and humbugs."

The ex-president's speech was made at the close of a hard day's campaigning through Iowa. He began at 7 o'clock and kept at it with little rest until he left tonight for St. Paul. Five speeches were scheduled for the journey through the state from Keokuk to Des Moines, but the colonel was called upon for twice that number, finding crowds awaiting him wherever his train stopped.

"There's no eight-hour law on this job," he sighed as he entered his car after making a speech not on the program. The heat was oppressive and the colonel's face was streaming, but he was well pleased his day.

Crowds which heard him were large and enthusiastic.

Terms it a "Crooked Alliance."

"The official republican party of today," said Colonel Roosevelt, "bears to the party of Lincoln the same resemblance that a ship which has been captured by pirates does to the ship before it was captured. Barnes, Penrose, Guggenheim and the rest of them wouldn't have known what was meant by republican principles if you had mentioned them. Those men represent the crooked alliance between crooked politics and crooked business which has been the curse of American life. They knew at the republican convention in Chicago that they were insuring the defeat of themselves. They expected the democratic party to come into power—but they thought we would confine ourselves to putting the other set of bosses into power, and that after four years they would come back again. Nothing is gained by changing the whip of Barnes, Penrose and Guggenheim for the scorpion of Murphy, Sullivan and Taggart. All bosses look alike to us."

Against Debate of Contests.

"I see that Mr. What's-his-name, that congressman from East St. Louis, Bartholdt—his one of the highway men—has asked Mr. Cummins to debate the Texas, California and Washington contest at Chicago. I hope Mr. Cummins will refuse, for the reason that I wouldn't debate with the pick-pocket the ownership of a watch he had just stolen. If the police are handy I will hand him over to them. If they are not I'll attend to him myself. Any man, any candidate for governor or other office who has knowledge of the facts and supports Mr. Taft gives us the right to say he is not competent to pass upon honesty in public life."

"Now a few words to the men who were formerly democrats. I want to call your attention to this difference between the Chicago and Baltimore conventions. The victory at Baltimore for Mr. Wilson was achieved because the bosses finally concluded that his victory meant their victory. At Chicago the bosses knew that our victory meant their defeat."

"If the democrats succeed in November, it means that every boss will be enthroned in his own state. The representatives and beneficiaries of privilege will feel that they have had a new lease of life. It means precisely that."

Progressives Name Ticket.

With John L. Stephens, of Boone, as their nominee for governor, Iowa progressives in convention this afternoon put a third party state ticket in the field, after overcoming opposition to the plan by a vote of nearly five to one. The speech of Colonel Roosevelt interrupted the state ticket nominations but after he left the following were named:

Lieutenant governor—E. G. Allison, Oneida; auditor—C. F. Meyers, Elkader; treasurer—N. F. Baker, Lucas; secretary of state—H. A. Morey, Waverly.

The platform indorses that of the national convention, asserts the belief in popular rule and declares that the "progressive party is here to stay." Congressional candidates were nominated by caucuses.

TRIAL IS POSTPONED.

By The Associated Press.

Aiken, S. C., Sept. 4.—Frederick O. Beach, the New York millionaire, will not stand trial at the September term of the Aiken county court of general sessions on the charge of assaulting his wife and slashing her throat. Solicitor Gunter, after a conference with court officials today, postponed the trial until next February.

OHIO PROGRESSIVES.

By The Associated Press.

Columbus, O., Sept. 4.—The progressive party in Ohio completed organization and began its first convention here today. Tom

## ROLLER OVER PROGRESSIVES

ROOSEVELT DELEGATES BARRED  
FROM REGULAR CONVEN-  
TION IN CAROLINA.

By The Associated Press.

Charlotte, N. C., Sept. 4.—Steamer tickets adopted by the executive committee of the state republican convention here today in barring all delegates except those who had pledged allegiance to President Taft. More than 400 delegates, led by members of the executive committee, formed the Roosevelt convention. They adopted a resolution condemning the action of the committee and deciding to have any further relations with the Taft convention, agreeing to put out a single electoral ticket, also a single progressive state ticket, independent of any action on the part of the regulars.

The scenes in both conventions were marked by spectacular speeches, particularly of the Roosevelt followers, in which Senator Marion Butler attempted to get the progressives to compromise with the regulars on a state ticket was voted down.

The Roosevelt convention endorsed Dr. Cyrus Thompson, of Onslow county, who was nominated for governor at the convention yesterday in Greensboro.

Directly after the action of the committee barring the Roosevelt delegates, Chairman John Moorehead directed that all delegates who were to be seated should be given badges that a policeman be stationed at the door of the hall to prevent the entrance of any Roosevelt men. This step barred the regular convention of anticipated interest and an afternoon session of about an hour in which was held, this being marked by adoption of cut and dried resolutions.

NAME FULL TICKET.

By The Associated Press.

Missouri Progressives Defeat Plan to Fuse With Republicans.

St. Louis, Sept. 4.—The Missouri state progressive convention nominated a full state ticket, by Judge Albert D. Norton, of St. Louis court of appeals. A statement of Gov. Herbert S. Hadley to progressive state chairman, L. A. Ellis, in which the governor said two or three republican candidates had told him they would withdraw from that ticket should the republican state central committee demand that they adhere to the support of the entire ticket. This statement was regarded as an effort by Governor Hadley to bring about a fusion between the two parties on these nominations and this was bitterly resented by practically all of the delegates.

The matter of obtaining places on the ballots for the party's candidates also received attention. A report of a special committee of lawyers appointed at the session yesterday finally was adopted. This put forward three methods by which the desired result may be accomplished, through attested certificates from the convention, by application of the progressive state committee, or through petition signed by the electors of the state. The report provided that should three fail, an attack should be made on the constitutionality of the primary law.

Besides Judge Norton other names are: Lieutenant governor, Burrus, Kansas City; secretary, Frederick W. Nelderneyer, Columbus; attorney general, A. M. Joplin; state treasurer, John Joplin.

NOT TO BE BOSSSED.

By The Associated Press.

New York Progressives to Hold Convention at Syracuse.

Syracuse, N. Y., Sept. 4.—With coming of the first delegates of progressive party that is to assemble tomorrow the word went tonight from those active in building up the national party organization that the problem of naming a ticket was to be left entirely to delegates.

"This is to be an unbossed convention," Chairman Hotchkiss told arriving delegates tonight.

This attitude was reflected in friends of Comptroller Wm. A. Dorkast, of New York, though were anxious to see the complete nomination.

Former State Senator Frederick Davenport was agreed upon tonight as temporary chairman of the convention by the state committee. The committee also met tonight and organized, named Wm. H. Hotchkiss, chairman.

OHIO PROGRESSIVES.

By The Associated Press.

## DEMOCRATS RUN A CLOSE RACE

TOTAL VOTE IN VERMONT  
SHOWS REPUBLICANS GET ONLY 6000 PLURALITY.

## GOV. WILSON IS PLEASED

Taft Supporters Must Petition to Have Presidential Electors Placed on California Ticket.

By The Associated Press.

White River Junction, Vt., Sept. 4.—The full report of the balloting in yesterday's state election in Vermont was compiled late today without altering to any material degree the general figures indicated by the early returns.

The unofficial total vote for governor reached 65,033, the largest in a state election in a presidential year since 1904. There was no election by the people but a sufficient number of Republican members of the legislature were chosen to insure the seating of Allen M. Fletcher in October, as well as the remainder of the Republican state ticket.

Vote For Governor.

The total vote of the state for all five candidates was: Allen M. Fletcher, of Cavendish, republican, 26,259; Harlan B. Howe, of St. Johnsbury, democrat, 20,350; Rev. Frazer Metzger, of Randolph, progressive, 15,800; Clement F. Smith, of Morrisville, prohibitionist, 1,443; Fred W. Suiter of Barre, socialist, 1,181.

A number of the small towns where there was no election for member of the legislature, were still balloting at a late hour. It will be some days before the exact line-up of the legislature is known, but early returns of 63 majority on joint ballot were not altered by more complete returns.

Republicans Elect Congressman. The republicans re-elected both of their congressmen, Frank L. Greene, of St. Albans, and Frank Plumley, of Northfield. They carried 11 of the 14 counties and 187 of the 246 cities and towns. Their party majority of 26,817, four years ago, and of 15,729 two years ago, dwindled to a plurality of 5,909, the smallest margin ever given a republican candidate in a presidential year.

The democrats carried two counties and 38 towns and ran up the largest total since 1880.

Progressives prevented a "people's choice" of a republican candidate for governor and carried one county and 21 towns.

## IT MEANS BUSINESS.

Gov. Wilson Comments on the Election in Vermont.

By The Associated Press.

Seagriff, N. J., Sept. 4.—"The fact that the democrats more than held their own in Vermont, a republican state, and also made substantial gains, means business throughout the country," said Woodrow Wilson today.

The governor said the big democratic vote was "very gratifying." It was difficult, however, he said, to analyze the results in Vermont on any comparative basis because the total vote was so much larger this year than two years ago, and it was hard to trace the sources of the gains. At any rate, he said, the Vermont election indicated a heavy vote throughout the country in the coming election and he said that he regarded it as significant that the democrats had carried the cities throughout Vermont.

"One thing is sure," added the governor, "the democrats did not lose any votes to the new party and the republicans lost. The results are certainly encouraging."

## CALIFORNIA PRIMARY.

Col. Roosevelt and Gov. Johnson Again Sweep the State.

By The Associated Press.

San Francisco, Sept. 4.—Returns today from yesterday's primary election made it plain that by petition only can Taft electors find place on the republican ticket at the presidential election this fall.

The decisive manner in which Roosevelt and Johnson swept the state for the second time this year make it certain that the coming convention to be held in Sacramento this month will return electors pledged to Roosevelt as the republican electors from California. The general primary law provides, however, that any candidate for office may find place on the ballot by petition if he obtains signatures constituting a stated percentage of the total vote. In the case of presidential electors the attorney general recently gave an opinion that their petitions must bear the signature of 3 per cent of the total vote cast about the state in the last general election.

Nominated for congress: First district, E. A. Hart, progressive; Eighth district, E. A. Hayes, incumbent, republican.

WISCONSIN PRIMARY RESULTS. Milwaukee, Wis., Sept. 4.—Practically complete returns from Milwaukee county of yesterday's primary swell the vote for John C. Karel, democratic nominee for governor to 18,882 and give A. J. Schmitt, his opponent, 9,504. Governor Francis E. McGovern, republican, unopposed, polled 4,106 in Milwaukee county, the vote being about 400 in excess of the total vote of two candidates seeking the nomination for state treasurer on the same ticket.

FAVOR ARBITRATION. Chicago, Sept. 4.—Encouraging news for the progressives regarding conditions in the west was brought by Governor Johnson today when he stopped off in Chicago on his way to Columbus, Ohio.

"The same fervent spirit that pervaded the Chicago convention is abroad all over the land," he said, "and it is a spirit which means victory."

SNOW IN NEVADA. Carson City, Nev., Sept. 4.—Snow fell in the mountains west of here today, covering the range to a depth of several inches. This is the earliest snowfall in twenty-five years.

FALSE ALARM OF FIRE. The fire department responded to a false alarm of fire turned in from Eighth street and the Cotton Belt railroad at 1:15 o'clock this morning.

## AUSTIN LADY TELLS ABOUT PLANT JUICE

MRS. PARKER FOUND RELIEF FROM ILLS AND HOPES OTHERS MAY ALSO.

Mrs. L. Parker, one of Austin's society ladies whose home is at 781-2 East avenue, gives the following statement regarding Plant Juice:

"It has helped me so much that you can refer to me if you wish in directing others who suffer with stomach trouble, as to the merits of Plant Juice. It is splendid. I have suffered with indigestion and even the most scrupulous dieting would not free me from dreadful suffering. I had heard of Plant Juice and thought it worth the trial. It truly was and I hope anyone afflicted as I have been may have as much relief from it as I have had."

No preparation of the age has proven as beneficial as Plant Juice for indigestion and in fact for all derangements of the stomach, liver, kidneys and blood. It enters immediately into the circulation and attacks the disease centers, restoring organs to their normal condition and banishing poisons from the blood. As a cleansing and remedial agent Plant Juice is unequalled. Its tonic effects for those who are run down, who suffer with nervous debility, with rheumatism, constipation and like ills are immediately apparent. For sale at the Old Corner drug store.

## TO CAMPAIGN IN MAINE

CONGRESSMAN BURLISON, OF TEXAS, WILL SPEAK.

Efforts to Be Made to Strengthen Democratic Forces Before the Election Next Monday.

By The Associated Press.

New York, Sept. 4.—After a conference today between Acting Chairman McAdoo of the democratic national committee, Senators Pomeroy, of Ohio, and O'Gorman of New York, and Representative Burleson, of Texas, at which the result in Vermont was thoroughly discussed, it was decided to bend every effort to strengthen the democratic campaign in Maine up to the last moment before next Monday's election.

With that end in view, Senator O'Gorman and Representative Burleson left tonight for a speaking tour in Maine. Representative A. Mitchell Palmer, of Pennsylvania, started for Maine yesterday.

At the close of the conference on Vermont, Acting Chairman McAdoo gave out a statement in which he said:

"The result in Vermont tells a big story for the democrats. The latest returns show that on state issues we have polled more than 20,000 votes and reduced the republican plurality to less than seven thousand. The prospects for Wilson and Marshall carrying Vermont are most gratifying."

William F. McComb, chairman of the democratic national committee, who has been convalescing from a nervous breakdown at a camp in the Adirondack Mountains, returned to this city today. He said the rest was of great benefit to him and that he hoped soon to be able to resume work directing the campaign.

Popular subscriptions of one dollar each from 1041 contributors to the democratic campaign fund were received today from Arkansas newspapers and 1500 subscribed by readers of a Portland, Oregon, paper.

## COTTON AT BRADY, TEXAS.

Special to The Morning News.

Brady, Tex., Sept. 4.—Cotton has been coming in rapidly for the past week and the receipts at the local cotton yards now total 824 bales. It is estimated that the cotton crop this year will not be quite as large as that of last year, but a great deal more feed and grain has been raised than formerly.

## TAX VALUES IN FORT WORTH.

Special to The Morning News.

Fort Worth, Tex., Sept. 4.—According to a report of the city auditor and collector, the assessed values for 1912 of both real and personal property are \$62,451,750, an increase of \$2,218,854 over the previous year. Realty is assessed at \$44,643,715. The tax rate is \$1.93 on the \$100 valuation.

## ENGINEERS IN SESSION.

By The Associated Press.

New York, Sept. 4.—With "safety first" as the keynote, the 700 engineers gathered here from twenty-seven different countries for the international congress for testing materials, delved deeply today at their second session into the task of devising means whereby deaths from industrial accidents may be reduced.

The failure of the Quebec bridge several years ago with a loss of one hundred workmen was mentioned as one of the mysteries that should be solved through tests of steel columns.

## DALLAS POSTOFFICE RECEIPTS

Dallas, Tex., Sept. 4.—During the month of August the total postoffice receipts for Dallas were \$63,000.12, as compared with \$56,371.25 for August of last year, an increase of \$6,628.87.

## Why Local Option Elections Are Called

## Fifty Per Cent Commission Is Paid to Field Superintendents Who Collect For the Anti-Saloon League

The following extracts are taken from the proceedings of the house investigating committee, appointed by the house of representatives of the Thirty-second legislature, at its first called session to investigate the prohibition amendment election held July 22, 1911, published by authority of the house of representatives as a part of the House Journal:

Dr. J. H. Gambrell, called as a witness, testified (page 79): "I am superintendent of the Anti-Saloon League, which is an interdenominational organization. The questions and answers given below are from his testimony, as shown on page 71 and pages following:

"What salary do you receive, Doctor, as superintendent of the association?"

A.—"Three thousand dollars."

Q.—"What does each superintendent of the field force receive?"

A.—"They are employed on a commission basis and pay the force according to the work they do."

Q.—"What commission do they receive?"

A.—"Fifty per cent."

Q.—"Sir?"

A.—"Fifty per cent."

Q.—"Of what amount?"

A.—"Fifty per cent of the amount collected."

Q.—"What from—from what source do they collect this money—what manner?"

A.—"Whenever they speak we have a card system, a pledge card system, whereby pledges are taken for twelve months, payable quarterly, in any amount that the subscriber wishes to give—any amount from 10 cents up; these cards are all passed, and all cash passed in by the field men to the headquarters: all these pledges are entered on the books, cash all entered, of course; quarterly statements are sent these parties making these pledges, and whatever is paid on these pledges, the field men get 50 per cent of it; they pay their own expenses."

Q.—"What becomes of the other 50 per cent?"

A.—"It is used in the office in maintaining the office force."

Q.—"This 50 per cent that the field men receive of the collections is 50 per cent of the amount pledged by these cards for the year, as it is paid in?"

A.—"As it is paid in."

Q.—"Yes, sir. This 50 per cent which comes into your office, as reported by the field superintendent, does it remain in your office as a part of the funds to be expended in the state of Texas, or is any portion of it sent out of the state?"

A.—"It is; there is 2 1/2 per cent of the funds that goes to the support of the national superintendent."

Q.—"Two and one-half per cent?"

A.—"Yes, sir."

Q.—"That is reported by whom to the national association?"

A.—"By me."

Q.—"By yourself?"

A.—"Yes, sir. It is reported to the national superintendent."

Q.—"Do you know of your own knowledge what salary is received by the national superintendent of the national association?"

A.—"No, sir, I do not."

Q.—"From what other sources except these do you receive contributions for this work?"

A.—"None others."

Q.—"Are there any voluntary contributions paid?"

A.—"Oh, yes, rarely."

Q.—"By superintendents—state superintendents?"

A.—"Yes, sir, sometimes."

Q.—"During the past year has any other state lent its financial assistance through its organization to the state board of the state of Texas?"

A.—"No, sir."

Q.—"If there had been any—"

A.—"If you will let me, I will just state the records. Our books show that only two amounts have come to the league outside of the state; one amount was from Los Angeles, but sent by a man who lived in Dallas; he was away during the time and sent his check; the other was the case of a woman who came to this state with her husband, whose health was bad, and who came here hoping to regain his health, and during the time they were here they attended a meeting somewhere and he made a pledge of \$4-\$1 a quarter—and he died, and she went back to Nashville and sent the \$4. These two amounts are the only two amounts that have come to the league outside of the state of which—but both of them were pledged inside the state."

Q.—"What financial assistance, if any, did the national association render you?"

A.—"None."

Q.—"What assistance, if any, Doctor, did any of the states, through your organization—I mean the organization of which you are the superintendent—render in sending speakers into Texas?"

A.—"None. We had—I mean the league had no speakers from outside of the state."

Q.—"Now, then, how much did you collect during the year for campaign purposes up to the 22nd?"

A.—"Do you mean up to the close of the campaign?"

Q.—"Yes, sir."

A.—"This statement here gives it all. I haven't made the figures. In the quarter beginning January 1, and ending April 1, the total receipts were \$7,469.97, and April 1 to July 1 the total receipts were \$7,724.46."

Q.—"Doctor, is that the entire amount collected by all the field superintendents?"

A.—"Yes, sir, it is the complete financial exhibit."

Q.—"And of that amount they received their commissions of 50 per cent?"

A.—"Yes, sir."

Q.—"Let me have your statement, there, just a moment."

A.—"Which do you want, the first or the last?"

Q.—"Either, it doesn't make any difference—or both. I expect, will be necessary. Now, you paid in commissions 50 per cent of this amount. How much does that amount to? That total amount is \$14,354.43. I find it. Of that amount you paid out \$8,000 to these different field superintendents, or a little better than that?"

A.—"The total amount is a little more than that, isn't it?"

Q.—"Well, that is the amount collected?"

A.—"Yes, sir."

Q.—"The amount collected during that time is what I speak of?"

A.—"Yes, sir."

Q.—"You paid out \$8,000?"

A.—"Yes, sir; 50 per cent, whatever it is."

Q.—"Fifty per cent of it?"

The call for the local option election in McLennan county, as published in the newspapers of this city August 1, read as follows:

"At a meeting of the executive committee of the Anti-Saloon League of McLennan county, held July 30, the chairman was authorized and instructed to call a general meeting of the league to be held in the Blue Room of the City Hall, Waco, on Thursday, August 3, 3 p. m. In compliance with the instruction, the call is hereby made."

Above is the testimony of Dr. Gambrell, under oath, before the legislative committee, who states, as State Chairman, that Anti-Saloon league officers who secure pledges and collections receive fifty per cent of all funds contributed. Following that testimony is the call for the present local option election by the ANTI-SALOON LEAGUE OF MCLENNAN COUNTY.

(Adv.)

## TO PROBE PRIMARY.

Fraud Charges to Be Investigated in South Carolina.

By The Associated Press.

Columbia, S. C., Sept. 4.—The charge of fraud made by Mrs. B. Jones and John T. Duncan, candidates for governor, in connection with the South Carolina democratic primary-election just held, will be probed by a senate committee.

Gov. Cole L. Blease, on the face of the returns, was renominated for governor by about 3,000 majority over his two opponents, the total vote being about 140,000.

The special committee was clothed with full power and authority to take testimony and make a thorough investigation of all alleged illegal practices at the primary. It will report at the next meeting of the committee to be called by the chairman.

## CZOLGOSZ'S FATHER ARRESTED.

By The Associated Press.

Cleveland, O., Sept. 4.—Paul Czolgoss, father of Leon Czolgoss, who assassinated President McKinley was complimented by Municipal Judge Levine today for having thrashed Synats Ruzsinis, who taunted Czolgoss for his son's act.

Czolgoss was in court on an assault and battery charge preferred by Ruzsinis. After declaring the father of the assassin not guilty, Judge Levine said:

"Czolgoss was taunted by Ruzsinis and five companions about his son's rash act. In this case the father is not responsible for his son's sins. Czolgoss should have whipped the whole bunch."

## DEATH LIST UP TO 60.

Twenty-One Bodies Recovered From Wrecked French Colliery.

By The Associated Press.

Lens, France, Sept. 4.—It is officially announced that the total deaths from the explosion of fire damp yesterday in the Clarence pit will reach 60. These include several miners who died after being brought to the surface. Most of the bodies were so badly mangled as to be unrecognizable. The entire pit is on fire. Mining engineers say it must be sealed.

Twenty-one bodies had been brought to the surface before the continued explosions caused the rescuing party to abandon their efforts.

### FREIGHT HITS PASSENGER TRAIN AT JACKSONVILLE.

About One Dozen Passengers Injured  
by the Derailment of Chair Car  
and Coach.

By The Associated Press.

Tyler, Tex., Sep. 4.—Several passengers were hurt when two coaches of south bound International and Great Northern passenger train No. 3 were bumped from the rails today, at Jacksonville, by a freight engine. The wreck occurred at 7 a. m., while the passenger train was taking water. The freight was a south bound extra on the Cotton Belt. Its locomotive shoved the chair car and one other coach off the track.

The injured included:  
MR. JOHN MADBACK, Arp, hand hurt.

A. J. HENRY, Troupe, sprained hip.

MISS MARY JOHNS, Palestine, legs and feet hurt.

B. MOORE, Palestine, back hurt.

W. T. PHEALEY, Seadrift, shoulder hurt.

G. M. SHARP, Nacogdoches, scalp wound.

MRS. W. T. PHEALEY, knee hurt.

N. A. HAYDEN, train auditor, side hurt.

W. M. SCHWARTZ, St. Louis, leg and hip hurt.

DR. J. L. CLINE, Corpus Christi, leg and wrist sprained.

Jacksonville physicians attended the injured.

### OPINION IS RECALLED.

Irrigation District Bonds Can Now Be Registered.

By The Associated Press.

Austin, Tex., Sep. 4.—As a result of the revision of the opinion of Seb F. Caldwell, an assistant attorney general holding unconstitutional the irrigation district act, irrigation district bonds can now be approved and no mandamus to test out the acts of constitutional validity is necessary.

Mr. Caldwell held the act unconstitutional because it made terms of directors of districts six years while the constitution limits terms of office to two years unless there be specific exemption.

Attorney General Walthall believes that Mr. Caldwell's opinion was too far reaching and it has been recalled. James B. Wells, Brownsville, and Herbert Davenport, of Anahuac, representing the only two irrigation districts in the state, can now have their bonds registered.

### NOTICE.

The Board of Equalization for the City of Waco, composed of C. M. Hubby, B. H. Clayton and E. W. Marshall will meet every day this week at the city hall between 10 and 12 o'clock a. m. and from 3 to 5 o'clock in the afternoon except on Thursdays and Fridays when the board will, in addition to their regular morning session, hold open from 3 until six o'clock.

### MRS. ORNER'S THIRD TRIAL.

By The Associated Press.

Pecos, Tex., Sep. 4.—The third trial of Mrs. Ames Orner, charged with the murder of her 11-year-old daughter, Lily, will be held here next week. The first trial, in El Paso, resulted in a life sentence. The second trial, held at Marfa last week, resulted in a mistrial. Mrs. Orner is now in the Pecos jail.

The Biggest and the Best in Texas.

## Current Events In Woman's Sphere

Telephone: New 225, 1925; Old 1925

KATE FRIEND, Editor

### MISS MARY SHELTON HAS QUESTS FOR DANCING PARTY

Among the recent arrivals is that of Miss Mary Taylor from Tyler. She is with Miss Mary Shelton and was introduced to members of the college dancing set immediately after her arrival. In selecting those who should first add to the pleasure of Miss Taylor's visit, Miss Shelton gave a reunion to her girl club, the Mad Caps, and their escorts. The evening combined the parlor dance and the outdoor lawn party. It was quite informal, in keeping with the waning season, also with the limited number of guests. Miss Taylor made quite a favorable impression and her social engagements are already in full number.

### CLUBS WILL APPOINT PRESS MEMBER FOR SEASON

Now that the intimation comes of resumption in club life, the editor of The News woman's department pleads that some one member be designated to give correct information as to days and hours and hostesses. It happens very frequently that a hostess is announced. At the last moment she can not serve. A change is made and the editor not notified. Or, the day is changed, and no notice given. This makes confusion. None would occur were there one person whose duty it is to give out untold information. Such will be of untold convenience and save much tedious telephoning, if all members feel that what appears in print is absolutely accurate.

### IT IS THE COMING STYLE TO BE DECIDEDLY BORED

Some thoughtful friend sends a copy of the Denver Post with page marked to tell that society has a new lull—to affect being bored. It occurs to the writer that this is rather hard on the would-be entertainer. Now, is it that all the women are to be bored, or all the men? How about getting into the style? It is an edict for the social world that it is not considered good form to be enthusiastic about anything—not even baseball. The echo of laughter should never be heard in a country club. The Post says this all comes from the inscription over the door of the Cheyenne club at Colorado Springs. This inscription reads, "Society is the aggregation of well-dressed people who prefer being bored by each other than to be bored alone." It is all well and good among the Rockies. If the Colorado Springsites do not want to laugh, let them keep the silence of the Sphinx. But for us down here in our Country club, our Huaco club, the Philo, the Elks, the Mannechor and all the rest, let us laugh and then laugh some more. We are more normal creatures for the bit of nonsense we let into our lives. Pray, why does society get together, if not for the fun which association brings?

### THE TUESDAY BRIDGE CLUB HAS RESUMED PLAYING

The first resumption of social activity came with the pleasant morning game of bridge which Mrs. Randolph Wilson afforded her club, the Tuesday bridge. This was called by Mrs. Wilson for the purpose of a reunion as well as to find out the sentiment of the club as regards resuming. It was the unanimous vote that the game be played regularly from this on. Mrs. Ernest Groves has removed to San Antonio, which would have created a vacancy had not Mrs. Brooks Pearson been welcomed to her old place. Mrs. Ira Seely will not be with the club this season, so Mrs. William Early was elected her successor as president. Mesdames E. F. Carroll and James Riley were absent from the city. This gave Mrs. Wilson opportunity for several special invitations. The prizes of the game fell to Mrs. J. S. Hill and Mrs. Merchant Colgin. The morning was pleasant for the details which the hostess provided, also for the reunion feature which it brought. Those who played were: Mesdames Conely Prendergast, Fielding Picklen, J. S. Hill, Harry Baine, Merchant Colgin, T. E. Jarman, William Early, Louis Early, Brooks Pearson, W. S. Witte, Joseph Wren, Irving Colgin, Adrian Moore, Beauford McWhirter, Dorothy Rylander and Miss Greta Williams.

### SUMMER WORK FOR MRS. LEN- NOX; TUBERCULOSIS HOSPITAL

The state Anti-Tuberculosis association is in the endeavor of having each county erect a hospital and take care of its own tuberculosis patients. Several counties have agreed to do this, and the agitation is now on for Waco and McLennan county. Several days ago the state secretary was here and the report was made public that both Mayor Mackey and Judge McCullough were favorably inclined. There is to be a conference early this month, when something tangible will result. The idea is to confine the infection as well as control it. Also, the hospital will provide comfort, proper diet and some pleasure to the doomed patients. In the meantime, the women are enlisted. Mrs. F. J. Lennox, as president of the City Federation of Women's clubs, is interviewing the presidents of the various organizations, and hopes to obtain the signature of all. When the conference is held, the women will attend and bring what pressure to bear they can for the establishment of this hospital. It all comes back to the same situation, not so much the care for those doomed as for the preservation of those who may be infected by the indiscriminate mixing with tuberculosis victims. It is almost the case of self-preservation.

Mrs. Lennox is quite an enthusiast over the proposed roadway from the

Rio Grande to the gulf. She has noticed that the Denison club women are committed to planting the pecan driveway out of their city, and she thinks Waco should take up the movement and do her part either from Hillsboro to Waco or from Waco towards Temple. Of course, Waco club women will join in any state-wide movement of civic beauty and convenience in highway intercourse. Mrs. Pennybacker, Mrs. Hertzberg and the other prominent women of the state are all endorsing the idea. Mrs. Pennybacker has requested the privilege of planting her tree. Doubtless something more tangible will be ready for the Waco club women when Mrs. Lennox calls them for their November federation meeting.

### THE WOMEN ARE SHAPING THEIR COTTON PALACE PLANS

Mrs. D. C. Bolinger as chairman of the women's department of the Cotton Palace, is beginning to marshal her forces. Today there is held a preliminary meeting out at the Palace. It is after this that the various chairmen will select their assistants, that details will develop and the systematic work proceed. So far, it is decided that the chairman of the textile department will be Mrs. Peyton Randle of the culinary, Mrs. Ben Gray Kendall, of the art, Mesdames J. W. Bass and Allan Sanford. Mrs. John Baker will also lend valuable assistance. It is expected that a floral display will be included, but upon a less elaborate scale than heretofore. Both the German and Bahemian women have been requested to join in this work. In all there seems the determination among the women that the Cotton Palace shall this season be fully up to former standards, or surpass. It is too early for definite information to be made public. But from this until the opening of the Palace there will be busy days and thinking days among the public spirited women who are joining Mrs. Bolinger in this work. Let every woman in the city feel that the Cotton Palace is hers, not the women's who are actively at work. Whatever the individual woman can do, let her feel that it is her duty to do. Let it be a long pull, a strong pull, a pull altogether for the success of the women's department.

### Society Notes.

Is it not the welcome tone to see the morning personals filled with arrivals and so few departures? This indicates that our reunion after summer separation is at hand.

The first wedding for the new Presbyterian church is the topic of pleasurable conversation. The knowalls say the date is September 13.

In going to Chicago Mrs. Nelson Smith joins Mrs. Pio Crespi and Mrs. J. D. Williamson at the Beach hotel. It is pleasing news that Mrs. Lloyd Tuttle expects to matronize a town home this winter.

The satisfactory improvement of Mrs. Ralph Turner at Hot Springs has decided Mesdames Turner and T. Jeff Smith to continue their sojourn several weeks longer.

The last news from Mrs. J. B. Cornish leaves her upon the eve of departure for Detroit, where she is spending ten days with Dr. and Mrs. W. A. McClain. She has spent the summer among the mountains of Pennsylvania and has written that it is due in Waco with September 10.

The arrivals of most frequent note during the next fortnight will be those of the city school teachers from their vacations. These have covered the United States and Europe, even Canada.

The women may not see anything to interest them in all this talk about tapping the gas main from Wichita Falls to the Bosque oil wells. But, when they begin to get gas in all their rooms and grates, burn in unlimited quantities, and find a bill of about a dollar at the end of the month, they will begin to take an interest.

One of the pleasing incidents of the prohibition excitement is that it has brought back to her Waco friends for a few days Mrs. Felix Robertson from Crawford. She is at the State House. What is "Boiled Fennel Huddle"? One of the recent recipe books tells how to prepare it.

The resumption of the Tuesday club of bridge sounds the social season for this season. Others will now fall into line at a rapid rate.

Waco was well represented at the Kerrville Chautauque this season. Those who attended will be interested to hear that the financial returns were gratifying, that the best season in the Chautauque history is closed, and that plans are already afoot to have increased attractions for the next season.

Watch your horse carefully. The meningitis is an epidemic among the horses of Kansas and it may reach Texas. If your horse shows symptoms of illness, send at once for the veterinary before the disease gets control.

So the woman's suffrage amendment lost up in Ohio. The women must now get out their second reader and run down the verses, "If at first you don't succeed, try, try again."

What a time the poor women do have! It takes all summer to get the throat in good condition after the tight collars of winter. Now, it will take all our concentration to get the arms ready for the full dress. The funny man is already making paragraphs about the tanned elbows.

Mrs. Frank Miller has left her summer home in Canada for New York City, where she spends several days and then takes passage for home. She is due with the middle of this month.

Upon reading of the trees in The News on Monday, Mrs. H. K. Ayresworth remarked of an interesting tree in New Iberia, La. This is a spreading oak, bowed under its heavy growth of the graceful Southern moss. Tradition says it is the tree under which Evangeline rested when on the long, weary search for her lover. Longfellow perpetuates the story in his beautiful poem. Mrs. H. B. McIntrot, during her last visit to New Iberia, sent home friends post cards bearing a picture of this interesting tree.

Mrs. T. M. Dillworth sends cards from Manitou Springs. She tells of the usual excursions and of meeting a number of Wacoans, whom she says never looked so good before.

Mr. and Mrs. B. L. Dean of Herring Avenue, have gone to their new home, Aransas Pass.

Mrs. L. W. Goodrich, whose movements are always of interest to her many friends here, is just returned home to Marlin from a summer sojourn in Georgia.

Mrs. John McNamara is now chateleine to her own little home, the former Dean cottage on Herring Avenue. The past few days finds an out of town movement of interest. This is that Mrs. R. B. Dickey has gone to make her permanent home in Dallas.

### Society Personals.

Mrs. William J. Neale is returned from her summer absence in Battle Creek and other places.

Among the recent homecomings is that of Mrs. Alfred Edwards, who had been in Oklahoma, Tennessee and points in Texas.

Judge and Mrs. L. C. Alexander are at home from their outing among the Osark mountains.

The last of this week notes the departure of Miss Mamie Arbuckle of North Taweh. She will teach at Eagle Lake this winter.

Mr. and Mrs. E. D. McCaa, who had been at Jackhill, are in Mobile for a few days before returning to Houston for the winter.

Mr. and Mrs. Lloyd Tuttle are again at Jackhill after a trip to Colorado and other points.

Mrs. Nelson Smith left on Wednesday for Chicago.

Mr. and Mrs. C. N. Clisbee are at home from a week's motor trip to Dallas.

Mrs. Forest Jackson is at home from her recent visit to friends in Whitney.

Miss Susie Sleeper, with Miss Althea Sleeper, is due with the present week from a visit to Abilene.

Mrs. Seawell of Marlin, is a recent visitor to her sister, Mrs. John McNamara, on Herring Avenue.

Mrs. Mamie Bunde Forkel, teacher of Piano and Harmony, for two years a student of the Royal Conservatory of Music, Leipzig, Germany. Terms, Piano \$4, Harmony \$2 per month. Studio, 303 North 8th St. New phone 2171. Old phone 1579.

## INSTRUCTION FOR ALL ANTI VOTERS

"Scratch the middle line," is the advice that anti voters should remember when they go to the polls Saturday, September 7, and then do it. The official ballots, which will be voted at the election, will have only three lines and will read as follows:

### OFFICIAL BALLOT

For Prohibition

Against Prohibition.

In order to vote the anti ticket, the middle line must be scratched. Just "Scratch the middle line" is the thing to remember.

(Adv.)

### ENGINEER IS KILLED.

John R. Lee is Victim of Assault at Dallas.

By The Associated Press.

Dallas, Tex., Sep. 4.—John R. Lee, a railroad engineer, died here last night as the result of an alleged assault made on him in the Santa Fe yards last Friday.

Although no arrests have been made in connection with Lee's death a complaint was filed late today against a man, charging him with being responsible for the engineer's death.

### PEST DESTROYS BEANS.

Spreads to 75,000 Acres.

Austin, Tex., Sep. 4.—A pest is said to be destroying all beans at Bay City in Matagorda county. Assistant State Entomologist Miller has been sent to give aid.

### VALUABLE DISCOVERY IN COMPLEXION BEAUTIFIER

(From The Home Maker.)

Because of its peculiar power of absorption, also because it serves every excellent purpose, ordinary mercolized wax is perhaps the most valuable complexion beautifier discovered within recent years. If one uses this she needs no toilet cream. Some use powder afterward, but this is not necessary and is inadvisable particularly when one perspires freely. This rule for applying mercolized wax has been found very satisfactory: Wash the face with warm water, drying lightly. Before thoroughly dry, anoint face and neck with the wax, but don't rub it in. The favorite way is to use before retiring, allowing it to remain on all night and washing it off in the morning with warm water. All druggists have this wax in original one-ounce packages.

For the removal of a wrinkled or flabby condition there's nothing better than to bathe the face in a solution made by dissolving 1 ounce powdered axolite in 1/2 pint with hazel. Beneficial results are quickly noticeable.

## The Goldstein-Migel Co.

Carpet Department, Second Floor, New Building

Yesterday morning the manager of the Carpet Department took the advertising man by the arm and said: "Come on—I've just got in some new Rugs I want you to tell the people about. They're beauties, and we have the room and light to show them."

## Rugs In All Styles Qualities and Sizes

Never have we shown such a Rug assortment. Before we did not have the room. Now, located in our big new department with plenty of space, splendid light and facilities for display, we are showing Rugs second to none in the city. All sizes, all styles, all qualities and at the lowest prices consistent with quality.

VELVET RUGS—Room size, Oriental patterns, in soft, rich color tones. A superior Rug at only \$20.00.

## DEAD MEN'S NAMES ON CALL FOR LOCAL OPTION ELECTION

Mart Citizen Also Says That Men Asking for Election Are Financially Least Responsible—Names Dead "Petitioners"

That the names of dead men and former residents of Mart are affixed to the call for the local option election in McLennan county is the statement of Henry Dreyer of Mart that is borne out by investigation. Relative to the proposition, it shows to what extremes the prohibitionists reached before the election was ever called. Mr. Dreyer, when asked about conditions in Mart said:

"Right is right and wrong is wrong, and what makes me hot about the matter of our being made dry in Mart is the fact that the individuals in the majority of instances who voted dry are financially least responsible. In other words, many of them are not tax payers. Now if you will take the petition recently signed for the local option election in McLennan county, you will find on that petition the names of men who not only were dead at the time the petition was circulated, but others who had removed from the locality in which they were registered. I can cite you a number of instances.

## LOOKS LIKE A DEFICIENCY

### STATE TREASURER FILES HIS QUARTERLY REPORT.

New Fiscal Year in Texas Opens With \$343,435 in the General Revenue Fund.

By The Associated Press.

Austin, Tex., Sep. 4.—The state began the new fiscal year September 1, with \$343,435.04 in the general revenue fund. In cash to the credit of all funds there was \$793,417.43, while the amount of bonds in the treasury to the credit of the several funds was \$19,359,816.28. Disbursements during the quarter ending August 31 amounted to \$1,848,256.93.

These facts come from the quarterly report and balance of the state treasury department today made public. It will be seen from the amount on hand in the general revenue that it will be very difficult for the state to get by this year without a deficiency. All accounts for the new fiscal year and all appropriations are now available. The state institutions are laying in their supplies for the year. The states income will be light until tax money begins to come in and with the drain for new supplies the state pay roll and other items, there will be a very close call along about October.

Last year there was a deficiency

for four months. This year the taxable values and the tax rate is higher. This may stem the deficiency tide but it will be a close call to say the least.

By The Associated Press.

Austin, Tex., Sep. 4.—Fifty presiding elders of the Methodist church from five annual conferences of Texas are meeting here and will continue in session tomorrow. Rev. Jerome Duncan, presiding elder of the Fort Worth district, is chairman of the conference.

Aside from the regular program to be devoted to discussion of church problems the presiding elders will spend a part of their time viewing the site of the South Methodist University, which is being erected here, and sight-seeing in Dallas.

Professor Lull, of Yale university, who has been making archeological investigations in Texas, will lecture to the church leaders.

Among the visitors will be Bishop James Atkins, of Winesboro, N. C., who was active in the locating of the Southern Methodist university here.

"G. W. Brunfield died in 1901 and his name appears on this petition. I see J. H. Bradley's name there also. He lives at Robstown. I see F. A. Dill's name at Mart. He is living in Teague. R. B. Crocker has been away from there four years, still his name is also on this petition. R. F. Upton's name is on this petition and he has no poll tax. J. C. Cavender is not in Mart. He is in Waco. J. F. Punched left in 1911 and further down on the sheet you will find his name.

"Aug. Boehme has been dead for three years, I believe, and still poor August's name is on that petition. W. H. Pilley is dead, and J. C. Burton is dead and I could name a whole lot more and their names are on the petition. W. H. Tienan and H. F. Milling, whose names appear on that petition stated to me the other day that their names appear there without their knowledge or consent. This gives you an idea to what extremes the prohibitionists are going to accomplish their purpose."

(Adv.)

## AMENDMENT VS. REPEAL.

While it is undoubtedly true that the man carrying heavy insurance could, without much regard for the risks involved, influence the company to give him lower rates than the small insurer had to pay, before the enactment of the fire insurance board law, it is not a fact that only the desire to obtain special privileges can be behind the movement to repeal said law as some of its defenders are now suggesting. The most insistent demand for the wiping out of this particular statute comes from the average buyer of fire insurance and not from the man with much property to be protected.

The reason for this is that, contrary to the promises of its proponents, the law has been invoked more for the benefit of the insurance companies than for that of their patrons. It was interpreted as giving authority for the making of rates that would enable the companies to make good alleged losses of revenue that had accrued as a result of their contempt for sound business principles, instead of with a view to promoting a better understanding of the insurance situation that both the insurer and the insured might come nearer getting their just dues.

Few complain of the law because it has apparently stopped discrimination. The complaint of the many is that the rates on about 70 per cent of the property in the state were given a sudden elevation on the theory that they were non-compensatory and that it was necessary to increase them because they had not proven profitable in the past. The elements composing the new rates were itemized, that the insured might know what it was they were asked to pay for, but it was never satisfactorily shown that the method employed in calculating the relative charge value of these elements was the correct one.

Texas Insurance, a publication that confines its attention to insurance matters, says: "According to reports received by the state insurance board for fire marshals over the state, Texas is at present cleaner by over 30 per cent than before the state insurance law was enacted. This law, it would appear from the reports received, has accomplished what the combined efforts of city authorities and civic organizations have failed to do. Business men and others have been forced to clean up their premises in order that they may enjoy a lower rate of insurance; trash cans are kept clean and dirt and rubbish removed from premises."

Insofar as it has helped to bring about such results as those outlined above, the law has been beneficial in its operations, and it is a pity that it was so administered in other respects as to render its repeal probable when there is so much room for further improvement in civic conditions throughout the state. Reduction of the fire waste should be provided for in every possible manner and the fire insurance law has certainly been efficient in that particular. If it could be amended so as to retain its fire waste destroying features and eliminate its arbitrary rate-fixing tendencies, there would be no good ground left for urging its repeal.

## A SIGNIFICANT MOVEMENT.

We are more than ready to agree with State Superintendent of Public Instruction Bralley that "one of the most significant movements in education in Texas is that of the introduction of industrial education into the public schools."

The Thirty-first legislature enacted what is known as the rural high school law, and appropriated \$50,000 for each of the two fiscal years to be used by the state board of education in duplicating the amount set apart by any local board of school trustees for establishing, equipping and maintaining one or more of the departments of agriculture, manual training and domestic economy. Under the provisions of this law state aid in adding such departments has been

extended to seventy-four different public schools. Wherever the work has been properly handled (and it was properly handled in all of the seventy-four schools, with some two or three possible exceptions, according to Professor Bralley), it has resulted in an increased attendance of students, both girls and boys; in a disposition to remain a greater number of years in school, especially among the boys; in elevating and dignifying labor in the minds of both students and laymen; in the acceptance of the idea of service as being prerequisite to the nobility of both womanhood and manhood in this country, and in a realization, never before experienced by the citizens of the community, that the public schools sustain an actual and definite relation to some of the more common and fundamental phases of human existence.

In announcing that the state department of education will soon have ready for distribution a revision of the 1911 course of study for the public schools, Professor Bralley says: "If agriculture were properly taught in the urban and rural high schools of Texas, the increased agricultural production of the state due to that instruction alone would be far in excess of the revenue now raised by local taxation for the maintenance of the public schools of the entire state. If the boys of Texas were taught manual training and the other practical subjects in connection with a carefully planned academic course in the public schools of Texas, in one generation the saving to health and purse would be incalculable, not to mention the other direct and indirect results of such instruction. There can be no question that these industrial subjects would enrich the course of study of our schools, thereby relating the work of the schools more directly to the daily life of the people."

Professor Bralley sounds the right note. Any subject, the study of which will more directly relate the work of the schools to the daily life of the people should receive undivided attention. Country children should be shown that farming is a science and taught how to conserve the soil while making it yield to the limit of its nature-given possibilities. City children should be impressed with the value of technical training and taught that the man who knows how to make things, how to shape raw material into useful and merchantable articles, is the better citizen. All children should be made to realize that the dignity of labor is not a mere catch phrase coined by politicians for pre-election use.

Texas needs more scientific farmers and more expert mechanics. Of expert pool players and patience-trying jacklegs she has more than enough. All money spent on the schools for the purpose of increasing their efficiency in the development of scientific farmers and expert mechanics will be well invested.

**DEMOCRATIC CAMPAIGN FUND.**  
Cato Sells, Democratic national committeeman for Texas, thinks it is possible to raise \$50,000 in this state for the campaign fund needed to promote the election of the presidential ticket nominated at Baltimore.

This looks like a small amount for five hundred thousand Democrats to contribute, even if none of them gave more than \$1 and half the number gave nothing at all.

Mr. Sells is not asking anyone to contribute more than a dollar, nor intimating that even a smaller sum will not be duly appreciated by the committee, but he realizes that only a comparatively small percentage of the voters can be relied on for campaign contributions in any amount, wherefore it is made known that larger contributions than \$1 from loyal Democrats anxious for the success of their party ticket will be gratefully accepted.

The desire of the leaders is that the Democratic campaign shall be financed by the people—not by the interests which might expect special favors in return, and to that end popular subscriptions are being solicited, not alone in Texas, but throughout the union. It is not unlikely that the rank and file of the Democratic party might be relieved of the necessity of contributing any money whatever to the campaign fund which is needed for legitimate expenses. If certain moneyed interests were permitted to do the financing, as seems to have been done in Roosevelt's 1904 campaign and is now being done, apparently, by George W. Perkins, Modell McCormick, Frank Munsey and Bill Flint for the Bull Moose. These men are multimillionaires, identified with the steel and harvester trusts or with other "big business," and it would be no trick at all for this quartet to raise \$2,000,000 or \$3,000,000 for campaign purposes from the trusts with which they are associated or from their own private purses.

The Democratic committee would not accept contributions from such sources and hardly looks for support from such quarters. It does not require a vast sum to meet all legitimate needs, not more than the people can give in a small way. But loyal Democrats must come forward with their mite promptly or the ticket may suffer for lack of the financial support it must have.—San Antonio Express.

## ABOLISH JOINT LINE CHARGES

TEXAS SHIPPERS INTERESTED IN EXPRESS HEARING BEFORE RAILROAD COMMISSION.

## IS SET FOR NEXT WEEK

Waco Freight Bureau Asks Order to Be Amended So As to Extend the Investigation.

Waco shippers, and all shippers in Texas for that matter, will be interested in the hearing before the railroad commission at Austin next week of the proposition to abolish all so-called joint line charges for express shipments and to prescribe that express rates and charges shall in all cases be assessed upon the present basis fixed for single line shipments. The Waco freight bureau has asked the railroad commission to amend its original order so as to extend the scope of the hearing, and it is believed that the request will be granted. Waco shippers claim that the movement to abolish the joint line charges is in the right direction, but, they say, that it is entirely inadequate to meet the reasonable necessities of the Texas jobbers who do a large volume of express shipping in the state, and for that reason the commission has been requested to amend its order so that the subject can be fully gone into.

**No Benefit from Pound Rates.**  
Under the present schedule, it is pointed out, patrons of the express companies do not receive the benefit of the rates per 100 pounds, or pound rates as they are termed, on shipments of merchandise as there is no just proportionate relationship between the rate on 100-pound shipments and the rate on shipments of less weight.

Shippers expect to show conclusively that there is no just, reasonable or proportionate relationship between the rates on packages over 100 pounds and the rates on packages of lesser weight and that the present rates on small packages are unreasonably high. It is sought to have the rule amended so as to make it obligatory upon the part of express carriers to route via the shortest and most expeditious route, and to incorporate in the ruling a provision for rating on shipments of merchandise weighing 250 pounds or more when shipped on one bill of lading by one shipper to one consignee, which shall be equivalent to 125 per cent of the first-class freight rate applying between point of origin and destination.

**Want Shipments Aggregated.**  
The commission will be importuned to make a ruling similar to that of the Interstate Commerce Commission for aggregating shipments governing Texas business. Although the proposed reduction in the Interstate Commerce Commission's rates to Texas are considered just and reasonable, it is claimed that unless a corresponding reduction is made in the Texas commission's scale of rates Texas markets will be at great disadvantage. The railroad commission is also to hear an application for adjustment of plate glass ratings. Under the present classification there is a minimum charge of 5000 pounds at first class on packages exceeding 7 1/2 feet high and more than 15 feet long. Should the application be granted the rate will be reduced to a more reasonable basis.

A proposition to cancel estimated weights of 75 pounds and to apply actual weights on new empty oil barrels is also to be presented at the coming hearing.

## HOMESEEKERS COMING.

**Big Immigration Movement to Texas Points is Predicted.**  
Prediction is made by railroad men that Texas this fall and winter is to enjoy the largest immigration movement from the northern and central states than in years. The railroads out of Kansas City, Chicago and St. Louis are already making preparations for handling the movement. Special excursion trains are to be operated and the rates are to be low. Waco is expected to get a goodly share of the homeseekers.

## REAL ESTATE TRANSFERS.

The following real estate transfers were reported by the National Exchange Insurance & Trust Company, abstract department:  
John Granger, et ux, to J. R. Wells, lot 35 1-3x115 vrs. in Mart, \$3500.  
J. R. Wells to John Granger, lot 35 1-3x115 vrs. Mart, \$3500.  
J. L. Herbellin, et ux, to Mary T. Houk, lot 50x165 feet out of Hall addition, Waco, \$2250.  
West End Realty Co. to W. S. Morrow, lot No. 7, block "UU," West End addition, Waco, \$430.68.  
W. R. Sullivan to W. J. Lewis, lots 8 and 9, block 18 Baylor addition, Waco, \$250.  
Mrs. S. E. McBroom to Joe Elias, lot on Ninth street, Waco, part Fitz Williams tract, \$1500.  
W. T. Barnes, et ux, to James Merriott, 30 1/2 acres, Gholson League, \$750.  
James Merriott, et ux, to H. R. Clark, part Gholson League, \$1000.  
W. S. Appell, et al, to T. H. Jackson, lots 4 and 5, block 105, Farwell Heights addition, Waco, \$1000.

Will the gentlemen who picked up a lady's pocketbook at Fifth and Washington streets, Tuesday at 5 o'clock, please return same to the office? The contents represent a month's salary of a telephone girl and 75c additional.

Mrs. J. W. Brightwell opens her piano class Sept. 9th. New phone 1427.

## Ten Minute Talks on City Building

LOCATION OF INDUSTRIES—HOW TO LOCATE INDUSTRIES BY THE CREDIT PLAN.

BY S. H. CLAY.

What is meant by the Credit Plan is simply the advancement of credit or endorsement of loans for industries which are in need of additional funds for the proper development of their business. A number of cities have adopted this plan in various forms with varied success. This plan is also known as the Boston Plan and the Williamsport Plan.

Perhaps the best explanation of the plan can be given by citing the example of Williamsport, Pa. A number of years ago the community was a thriving place, dependent almost entirely upon the lumber industry. One individual practically controlled the industry. He met with reverses and went to the wall. The mills were closed and the workmen were thrown out of employment. The city suffered a period of serious business depression.

A mass meeting of citizens was called for the purpose of devising ways and means of relief. It was decided that it was bad for a community to be dependent upon a single industry. It was also recognized that manufacturers would have to be given some inducements to offset the effect of the lumber failure. A committee was formed to provide for these inducements and to determine their character. The committee embodied in its report the credit plan.

A campaign was organized and conducted which resulted in the raising of many thousands of dollars in guarantees. No money was collected, but each subscription represented the amount which the person making the subscription agreed to stand good for in case of loss.

The plan provided that industries needing loans should apply to a committee of three trustees, whose duty it was to go carefully into the matter, ascertaining the amount of the loan desired, the security offered and the general worth and merit of the proposition. If the trustees passed upon the matter favorably, they went to the banks with which the loan was to be placed, made out the notes or mortgages, had the proper officials representing the industry to endorse the notes or sign the mortgages, and then signed the papers themselves as attorneys-in-fact for the signers of the guarantee fund.

The banks notified the trustees at the same time they gave notice to the officials of the industry when payments on the notes or mortgages were due. In case of loss the banks notified the trustees, who in turn called upon and collected from each subscriber his share of the loss.

The banks also notified the trustees of their collection of payments on the principal.

Upon this plan, which in large measure avoided the bonus-hunter, the city was able to recover and has been steadily growing since that time.

In Boston the plan is very similar. Butler, Pa., has only recently raised about \$700,000 under this plan and has located several industries by its use.

At Boston, the Chamber of Commerce secured a charter for a separate corporation known as the Industrial Development company, which wrote contracts with various subscribers, to create a guarantee credit fund of \$500,000, one-tenth of which is paid in. Each subscriber's liability is limited to the amount of his contract. Any applicant who has the approval of the Chamber of Commerce on Industrial Development and the Loan Committee of the Industrial Development company receives assistance by the Development company endorsing his note, for which the company charges a commission. As the applicants are found among people outside of banking credit, the risk is, of course, high, and it has been thought wise, therefore, to keep the loans small. Another reason for preferring a considerably number of small loans to a few large ones is that it is expected to produce many institutions of moderate size out of which some big one may possibly grow, rather than to concentrate upon a few conspicuous ones.

Jackson, Mich., has the plan with some modifications over the Williamsport plan. About two years ago the commercial organization in Jackson raised a fund of \$100,000. The company securing the loan, together with the loan secured, must be approved by the Manufacturers' committee, the Ways and Means committee, and the Board of Directors of the Chamber of Commerce before the matter is submitted to the three trustees of the guarantee fund.

After all have approved the company and the loan asked, the proposition is then presented to four banks of the city which divide the loan equally among themselves. The notes are endorsed by the trustees. A first real estate mortgage also runs from the company to the trustees.

The banks charge five per cent interest on loans made in this manner and payment is required in equal annual installments covering a period of from five to ten years.

The first year the plan was in operation three concerns were located. Two more were secured this spring and at the time of writing this article two other applications are pending.

The plan has been found satisfactory in financing the erection of buildings for new industries. In the case of local men organizing a company for the manufacturing of certain products, the trustees require them to furnish the site for the factory and the trustees will erect the buildings. In the case of foreign industries, the trustees furnish both the site and buildings.

Of course, the entire expense of site and buildings is borne by the incoming company and is paid back into the guarantee fund during a certain period of time. Nothing in the way of a bonus is given, no free sites, free water or donation of any public utilities. Everything is paid for by the company desiring to locate, but assistance is given in the extension of credit sufficient to finance the operations of the company, enabling them to begin their business without the serious handicap of lack of capital.

(Tomorrow—How to locate industries by the Town Lot Plan.)

## INSPECT KATY TERMINALS

GENERAL MANAGER WEBB IS PLEASED WITH PROGRESS.

Accompanied by General Superintendent Walton He Makes Brief Visit to Waco on Inspection Trip.

During their one hour visit to Waco yesterday afternoon, General Manager W. A. Webb and General Superintendent J. W. Walton, of the Missouri-Kansas and Texas—Texas Central lines, inspected the work on the Katy terminals in East Waco, and both officials expressed themselves as being well pleased with the progress so far made. The work, they said, is to be pushed rapidly, but neither official did not vouchsafe when the terminals will have been completed.

General Manager Webb and General Superintendent Walton arrived in Waco on a special, consisting of their business cars, from the south at 2 o'clock, and were joined here by Superintendent F. S. James, of the Texas Central and the Waco-Dallas-Port Worth division of the Katy. The officials have been in South Texas about a week making an inspection of the Katy lines. The inspection is to continue until every mile of the Katy and Texas Central systems have been traversed. The visitors, accompanied by Superintendent James, left Waco at 3 o'clock in the afternoon for points west on the Texas Central. They are to go as far as Rotan, the western terminus. It has been the policy of General Manager Webb to make every improvement to bring the Katy up to the very highest standard and close inspection is made by him on every trip.

**CARD OF THANKS.**  
Our sincere gratitude is expressed to the neighbors and friends who came to our assistance in our great bereavement, caused by the death of our loved one, Mrs. Fannie Kaplan. Their kind deeds and innumerable courtesies enabled us, in some measure, to withstand the separation from our loved one. We are especially thankful to those who came to the rescue of Mrs. Kaplan immediately after the tragic accident which resulted in her death, and we cherish in grateful remembrance those who endeavored to lessen our affliction.

## NEGRO GETS 50 YEARS.

Dallas Record for Big Verdicts in Burglary Cases Broken. Special to The Morning News.

Dallas, Tex., Sept. 4.—Henry Williams, negro, pleaded guilty to a charge of burglary this morning in Judge Barry Miller's court and about thirty minutes afterward the jury which took the plea assessed his punishment at fifty years' confinement in the state penitentiary. The verdict of this jury breaks all records for big verdicts in burglary cases tried in Dallas county.

Williams was charged by indictment with entering the house of Charlie Moore. The evidence showed that the house was entered in the night and that the defendant caught hold of Moore's wife, frightening her badly. Williams left the house and Moore started after him, overtaking him after a heated race. This occurred, according to the indictment, on August 5. When Williams entered his plea, he broke down and wept.

# GIANT'S LEAD IS INCREASED

NEW YORK DIVIDES DOUBLE-HEADER AND THE CUBS DROP A GAME.

## WALSH MAKES HOME RUN

Brooklyn Wins From Boston 2 to 1 in Great Pitchers' Duel, Lasting Thirteen Innings.

By The Associated Press.

Philadelphia, Sept. 4.—New York and Philadelphia broke even here this afternoon in the first of three successive double-headers to be played between the teams. The visitors landed the first game 5 to 2 and the home team the second 4 to 2. In the first contest New York won by bunting five doubles and a single with a pass off Moore's delivery, in the second and fifth innings, while Teareau kept his opponents' hits scattered. In the second, Chalmers returned to the game after a long lay-off and did excellent work. Marquard was hit for a double by Paskert, two sacrifices, a single by Luderus and a home run by Walsh in the first inning. These runs decided the game, but Devere contributed no muffs after two were out in the sixth. Score:

### Pittsburg 5, Chicago 2.

*By The Associated Press.*

Chicago, Sept. 4.—Wilson's home-run drive won today's game for Pittsburg 5 to 2 and incidentally widened the margin between Chicago and New York to six full games in the pennant race. Chicago took a two-run lead in the sixth. Zimmerman singled and Leach walked. Saier fanned and Evers singled too hot for Wagner and Zimmerman scored. Needham then singled, filling the bases. O'Toole made a wild pitch and Leach scored. O'Toole retired after this inning and Robinson held the locals safe. The visitors made one run on Miller's double, an infield hit which Zimmerman let pass down the third base line, thinking it would roll foul. On a double play Miller scored. After one out in the eighth, Carey singled, Donlin popped out and Wagner was purposely walked. Miller then singled and Carey scored. With two men on bases, Wilson knocked the ball over right field fence into the bleachers, scoring both runners ahead of him.

## National League

Boston 6, Washington 2.

By The Associated Press.

Boston, Sept. 4.—Washington came to town today, declaring it was still possible for them to win the pennant, but they lost to the league leading Boston by a score of 6 to 2 the opening game of a series which will have an important effect upon their chances. Manager Griffith sent a relay of four young pitchers against Boston with but poor results. Collins for Boston was in fine form and received gilt edged support. The locals clinched the game in the second when they piled up four runs. Two passes which Engel gave among four hits assisted in the scoring. Gallia, who succeeded Engel, was also wild; Musser, who followed, was both wild and ineffective, Boston scoring two runs off him, and Herring, who finished, showed to little better advantage. Gandil knocked in both of the Washington's runs with a triple and a single.

PITCHER WORKS RELEASED.

By The Associated Press.  
 Detroit, Sept. 4.—Pitcher Ralph Works, a member of the Detroit baseball team for four years, was today released to Providence in the International league.

## American League

New York 6, Philadelphia 1.

New York, Sept. 4.—New York hit Combs hard today and won easily 6 to 1. Daniels broke up the game in the sixth when he tripled with 3 on base. Chase's hitting, a wonderful stop by Barry and a great catch by Lelivelt were the features. Lelivelt robbed Baker of a home-run in the eighth with 2 on the bases when he jumped into the air and pulled down Baker's drive with one hand.

## KILBANE RETAINS TITLE

THE FEATHERWEIGHT CHAMPION OUTPOINTS JOHNNY DUNDEE.

Cleveland Boy All the Way Has Best of Ten-round Bout at New York.

By The Associated Press.  
 New York, Sept. 4.—Johnny Kilbane, of Cleveland, holder of the featherweight title, easily outpointed Johnny Dundee in a ten-round bout here tonight.

Dundee rushed from the start but met unvaryingly with left jabs to the face that rendered his efforts futile. The coolness of the Cleveland boy disconcerted Dundee and he swung wildly at the elusive champion, who smilingly sidestepped his lunges. Kilbane varied his defensive tactics with occasional mixes in which show-ers of short arm blows bewildered Dundee. In a hot mix-up in the seventh Dundee landed a left hook to Kilbane's nose which started the blood.

At no time did Dundee have an advantage, while Kilbane apparently did not extend himself, easily outpointing his opponent in every round. Abe Attell was introduced at the ring side and challenged the winner.

## MR. RENT PAYER

How long have you been paying house rent? Some of you one year, some five, others ten to twenty years. None of the money thus expended ever comes back to you in the way of a credit on a home, or in any other way. When you pay rent, do not expect it back. You may pay all a place is worth in rent, the place still belongs to some one else. Why continue?

We will lend you the money at 5 per cent interest to buy or build you a home and let you pay it back just like rent—small monthly payments.

You have thrown enough money away. Why not get out of the rut. Own your own home.

## COTTON 27 POINTS UP

MARKET OPENS STRONG AND AT  
ADVANCE.

Firm Cables and Warm Weather in  
the South Cause a Run of  
Buying.

By The Associated Press.

New York, Sept. 4.—The cotton market was very active again today and while fluctuations showed considerable irregularity, the general trend was upward with the close steady at a net advance of 27 to 27 points. The market opened strong at an advance of 17 to 22 points on a run of buying which was encountered by relatively firm cables and warm weather in the south. This advance carried December contracts up to \$11.45, or nearly \$3 per bale above the low level of last Friday, and the market encountered heavy realizing by recent buyers while it was also reported that local bears who had taken profits last week were reselling some of their cotton. At any rate the market soon eased off and during the middle of the morning showed a reaction of some 12 or 15 points from the best under this pressure and considerable southern selling said to be in the way of hedging.

The detailed weather reports from the eastern belt showed comparatively higher temperatures, however, and following the publication of the weekly bureau report which resulted in a bullish interpretation around the ring, the market again firmed up. The buying seemed to be more active and aggressive on this advance than it had been at the opening and December contracts sold up to 11.51 during the middle of the afternoon, with the active months generally showing a net advance of 27 to 33 points.

Realization caused some irregularity in the late dealings and the close was 5 or 6 points off from the best.

Some of the more prominent spot house brokers were sellers on the afternoon advance and there was an active demand from Wall street. Receipts 12,550 bales against 10,443 last week and 25,104 last year. For the week 100,000 against 119,066 last week and 123,960 last year. Today's receipts at New Orleans 14 against 12,096 last year; at Houston 14,478 against 13,477 last year and at Galveston 9,658 against 13,748 last year.

New Orleans.

By The Associated Press.

New Orleans, Sept. 4.—Cotton futures opened steady at an advance of 11 to 13 points on good cables and continued drought in the western belt. The market had no selling power, although reports from the belt concerning the movement of the new crop and offering of spot cotton were bearish. Private cables from England told of a good business among manufacturers of cotton goods. Buying was moderate in volume but was met by slender offerings. At the end of the first half hour of business prices were 15 to 16 points over yesterday's close.

The forecast of fair weather for the entire cotton belt held the market steady around the middle of the morning and the weekly weather reports increased the desire to buy. These reports confirmed the claim of the bulls that too dry weather is prevailing in South Carolina, Georgia and portions of Alabama as well as in Texas and Oklahoma. At the highest the trading months were 17 points over yesterday's final figures. Scalping longs took profit and noon prices were 12 to 17 points up.

In the afternoon the market was very steady on buying based on the weekly weather reports. At 2 o'clock the trading months were 25@26 months over yesterday's last quotations.

Cotton futures closed steady at a net advance of 29 to 33 points.

Sales of the day 8000 bales, of which 3000 were for speculation and export and included 6900 American. Receipts 7000 bales, no American.

## RALLY IN GRAIN MARKET

WHEAT UP HALF CENT, CLOSING  
FIRM.

Support on Soft Spots Bulges When  
Pressed for Sales—Corn  
Scores Gains.

By The Associated Press.

Chicago, Sept. 4.—Firmness in the wheat market today seemed to be based largely on a feeling that as the market had declined three days in succession a rally was due. Closing prices were firm, 1/2 to 1/4c higher than last night.

Corn scored a net gain of 1 1/2@1 3/4c and oats an advance of 1/4@1/2c. The outcome in provisions was a decline of 2 1/2 to 17 1/2@20c.

Wheat finished at virtually the high point of the day. There was evident support on soft spots. When pressed for sales, however, it bulged. Wet weather delaying Canadian harvest operations gave the bulls something tangible to work on. There were also reports of a heavy frost in Calgary, Paris, too, sent word of damaging rains.

Owing to car shortage Kansas farmers were being advised to hold their wheat and stop threshing and this stopped the market from declining at any time more than 1-8c under last night. Outside limits touched by December 91 1/2 and 92 1/2c, with the close 1/2c higher at 92 1/2c.

Material strength developed in corn largely as a result of possibility that frost which appeared in the far northwest might reach the corn belt. Moreover, there were rumors that a leading expert was estimating the crop below the total heretofore generally accepted.

Good demand for oats prevailed. Receipts saw consignments notices were lighter. Upper and lower levels reached for December were 32 1/2 and 32 1/4c with last sales 32 1/4@1/2c, a rise of 1/4@1/2c, compared with last night. Sales of September pork formed the chief reason. In the end pork was down 17 1/2 to 17 1/4@20c, lard 2 1/2 to 12 1/2c, and ribs 7 1/2@17 1/2c.

Wheat—Sept. 92 1/2c, Dec. 92 1/2c, May 96 1/2c.

Corn—Sept. 74 1/2c, Dec. 55 1/2c, May 54 1/2c.

Oats—Sept. 31 1/2@32c, Dec. 22 1/2@30c, May 24 1/2@25c.

Pork—Sept. 17 1/2c, Oct. 17 1/2c, Jan. 19 1/2c.

Lard—Sept. 11 1/2c, Oct. 11 1/2c, Jan. 11 1/2c.

Short Ribs—Sept. 10 1/2c@9 1/2c, Oct. 11 1/2c, Jan. 10 1/2c.

St. Louis.

By The Associated Press.

St. Louis, Sept. 4.—Receipts—Flour 19,000, wheat 247,000, corn 62,000, oats 52,000. Shipments—Flour 12,000, wheat 177,000, corn 48,000, oats 66,000.

Kansas City.

By The Associated Press.

Kansas City, Sept. 4.—Receipts—Flour 209,000, corn 11,000, oats 4000. Shipments—Wheat 275,000, corn 16,000, oats 14,000.

LIVESTOCK.

Fort Worth.

By The Associated Press.

Fort Worth, Tex., Sept. 4.—Wednesday's livestock market was considerably hindered by the late arrival of the receipts. At 10:30 o'clock there were 100 loads "back."

Beef steers sold steady to strong, with one load of Liano county stuff notching 6.20. Outside of that, there was little classy stuff in the offering.

The stock market was a mean affair, little selling in the early trading. The market was touted to be 10 to 25 cents lower.

Cows sold steady, one load going at 4.3c. Heifers were scarce and steady and the same thing prevailed in the bull division.

Calves were fully steady, one load selling early at \$7.25. Little classy stuff was offered.

Hogs reached another high top for two years, when a load sold for \$9.30. The market generally was considered 10 cents higher.

With small receipts sheep ruled steady to weak. Some lambs sold at \$7.

Cattle receipts 4600, steady; steers top \$6.20, calves receipts 2000 steady, top \$7.40.

Hog receipts 1240, 10 cents higher, top \$9.30.

Sheep receipts 475, steady to weak, lambs \$7.

Chicago.

Sales of the day 8000 bales, of which 3000 were for speculation and export and included 6900 American. Receipts 7000 bales, no American.

## STOCKS ARE IRREGULAR

BUYING MOVEMENT STARTS  
SOON AFTER OPENING.

Prices Jump Slightly, Followed by  
Bagging Market—Equipment Com-  
panies Show Increase.

By The Associated Press.

New York, Sept. 4.—The most noteworthy feature of today's dull and irregular stock market was the growing importance of money, a factor. For a time the list gave signs of an inclination to shake off the heaviness of the previous day, although the opening prices were generally lower but it was followed by a buying movement and short covering which soon resulted in gains of a point or over in some of the most representative issues.

In the early afternoon, when call loans were quoted at 4 per cent, the money rates went higher, the market sagged until little was left of rise in speculative issues, especially tobacco. The most cheerful note sounded during the day was a statement dealing with the operations of the leading equipment companies, showing steady increase of business. Earnings of these companies for the first half of the current year are well ahead of the previous year.

The bond market was higher, with pressure against some of the traction issues. Total sales par value \$1,850,000.

United States government bonds were unchanged on call.

rough \$7.65@7.85, pigs \$5.25@5.20, bulk of sales \$9.05@9.25.

Sheep—Receipts 42,000, opened steady to strong, closed weak; native \$3.40@4.75, western \$2.50@4.75, yearlings \$4.50@6.50, lambs native \$4.50@7-15, western \$7.05.

Kansas City.

By The Associated Press.

Kansas City, Sept. 4.—Cattle receipts 16,000, including 4610 southern, steady to 10c lower. Dressed beef and steers \$7.50@9.50, fair to good \$5.25@8.40, southern steers \$4.25@6.10, southern cows \$3.25@5.25.

Hog receipts 4400, steady to 10c lower. Bulk of sales \$5.40@5.70, heavy \$4.40@5.60, packers and butchers \$4.40@5.75, lights \$5.40@5.80, pigs \$5.70@7.50.

Sheep receipts 9000, steady 10c higher. Utah lambs \$7.10, lambs \$6.25@7.10, yearlings \$4.50@5.25, wethers \$4.00@4.40, ewes \$3.50@4.25.

St. Louis.

By The Associated Press.

St. Louis, Sept. 4.—Cattle receipts 6300, including 1700 Texans, strong; native shipping and export steers \$8.50@10.50, dressed and butcher steers \$6.00@8.50, stockers \$4.00@7.25, cows and heifers \$4.00@8.75, calves \$6.00@10.50, Texas and Oklahoma steers \$4.25@8.00, cows and heifers \$3.00@7.50.

Hogs—Receipts 4500, steady; pigs and lights \$6.00@8.00, mixed and butchers \$5.65@9.00, good heavy \$8.75@9.50.

Sheep—Receipts 5200, steady; muttons \$3.65@3.75, lambs \$5.00@7.00, stockers \$2.50@3.50.

Poultry, Butter Eggs.

By The Associated Press.

St. Louis, Sept. 4.—Poultry weak, chickens 12 1/2c, springs 16 1/2c, turkeys 17@18c, ducks 9 1/2@11c, geese 5@10c. Butter quiet, creamery 23@26c. Eggs firm, 19 1/2c.

## IN THE WHOLESALE TRADE

EFFORT IS BEING MADE TO BULL  
ROASTED COFFEE MARKET.

Rope is on the Advance—Increase in  
Price of Poultry Wire Netting,  
Fresh Produce.

By The Associated Press.

Seemingly in an effort to bull the coffee market, Arbuckle Bros., coffee roasters and exporters, have advanced the price of Arisosa coffee two cents per pound within the last three months. The second advance of a cent per pound became effective Wednesday. The advance does not affect the green product. Local wholesalers who have been advised of the further advance of Arisosa,

**BRITISH MOTOR YACHT WINS.**

By The Associated Press.

Huntington, N. Y., Sept. 4.—The Royal Yacht club of England today lifted the Harmsworth trophy. In the most spectacular race since the Americans brought the trophy across the Atlantic five years ago, the British-built hydroplane Maple Leaf IV, won the deciding race of the series on Huntington bay this afternoon. She covered the 30-mile course in 47 minutes 46 seconds, defeating the only American entry then running, Baby Reliance III, by one minute five seconds.

(Adv.)

**MART LOSES COTTON TRADE, NEARBY TOWNS NOW BENEFIT****Cotton Yard Established at Otto Needs Addition.****Mart Commercial Interests Bear Brunt of Prohibition Fallacies**

Mart, Tex., Sep. 3.—The second day investigation of trade conditions at Mart developed the following facts—and convinces your correspondent all the more that the people hereabouts are surely, but slowly aware of Mart's loss of trade.

One very interesting feature in this connection is the statements made by the superintendent of the Farmers' Gin company, of Otto, Mr. H. Potthoff. He said, "to show you how things are getting affected, Mart, we will go into the books and I will give you a list of the individuals who are this year ginning their cotton here in Otto and who last year traded at Mart. Of course there are some in this list—I can't say exactly how many, who are new customers from this immediate locality, but they are few. On Sept. 2, 1911, we ginned 203 bales. On Sept. 2 this year, we ginned 543 bales. 340 bales more this year than last. The price of our service is the same as the price charged at Mart, 40c per 100 lb. for bagging and tying."

The farmers whose trade makes up this 340 bales include:

Matthew Cook  
O. P. Dark  
W. T. Davis  
J. B. Clemens  
A. Groschke  
W. Hickman  
S. T. Jones  
F. Winkelman  
W. A. Nichols  
H. Neuman  
Jno. Robinson  
E. Touchstone  
J. C. Dyer  
Theo. Dreyer  
G. W. Daniels  
S. T. Pyffe  
Paul Groschke  
W. L. Hawthorne  
Otto Morgenthaler

Continuing Mr. Potthoff said: "Of course Otto is pleased to get this trade and will nurse it, but the fact is these farmers are coming to us from one-half to two miles farther than they would have to go in making the trip to Mart simply because Mart is dry, and if I have heard one, I have heard a dozen say they won't sell another bale of cotton in Mart or buy another dollar's worth of goods there."

**Cotton Yard Established.**

"Last year, we did not have to have a cotton yard here. Look over yonder. A half hour ago we had 1055 bales there and it will be necessary tomorrow to get another yard. That shows you what the Mart farmers are now doing for Otto."

E. W. Wilcox, for twenty-five years locomotive engineer in the employ of the I. and G. N. railroad said: "I cannot help but believe that the business interests at Mart have been seriously crippled, that from a personal interview with many of the farmers residing around this town to the number of 50, they have positively stated to me that they have reduced their trade at Mart to the smallest amount possible and when asked why this is so many state it is because in Mart their dollar is not as good as it is in other places."

"Our farmer class is a peace loving body of respectable, intelligent men, many of them old settlers, whose belief in personal liberty makes them rebel against an infringement upon their individual rights as citizens. They have stopped going to Mart to trade because they drive in there tired and hot."

"I am a churchman, my trade—that of locomotive engineer is a guarantee of my sobriety and my 25 years employment as such may have weight. I have lived in Mart many months and I know what the trade is here during fall months of the year and my honest opinion is the business is very materially less than formerly at this time of the year and worst of

all the prospects are that many farmers will be weened away from Mart." H. Hemstoffer, who has lived just south of Mart for many years, said: "I have my beer at my house and drink it every day. My family drinks it. So the matter of not being able to get it when I go to Mart does not cut so much figure with me, but the other farmers hereabout, who do not have beer at home, when they drive to town are going to trade in a town where they can have it. I am going to take every one of my men Saturday to the polls and every one of them tell us they will vote against prohibition, not only this time, but every time the matter is forced to a vote."

## MORE CARE FOR PHYSICAL BEING

BROOKS ADVOCATES THIS AS FUNDAMENTAL SUCCESS IN LIFE.

## MORE DIVERSION NEEDED

Scores Present School Conditions—Too Much Writing and Reading and Not Enough Play.

Hon. Pat Neff's address on "Our Country's Flag" was the feature of yesterday's session of the teachers' institute. Another interesting part of the program was a demonstration in physical culture by Miss Nellie Mae Whitman, a teacher in the city public schools. The institute is proving a success in every respect, all of the meetings being entertaining as well as enlightening. The principal address on the program today is that of J. C. Lattimore, superintendent of the city schools.

Laying great stress on proper physical development as essential to healthy mental and spiritual well being, T. D. Brooks, superintendent of the Hillsboro public schools, addressed the teachers' institute in session here. He contended that the measure of efficiency and successful achievement in life rests upon the foundation of physical welfare, and made a strong plea to the teachers to use their influence toward bringing about better conditions, and more congenial and healthful environments in the school districts in which they teach.

### Why Forfeit Health For Education.

"Our school system and equipment throughout this country should not be such that children must go to school at the expense of their health," said Prof. Brooks. "There is no reason why one should subject himself to any dangers whatever in attempting to attain an education. Rowe's statement shows that 20 per cent of the pupils in the upper grades of the United States, have weak eyes, while less than three per cent are so affected upon entering school. Later statistics, I believe, would make it 50 per cent. Tyler tells us that the heavy increase in the death rate of girls incurred when they are about 18 years old is due to diseases contracted when they were 13 or 14. To lighten the death rate, we must begin fortifying the girls constitution long before she reaches the critical age of 13 and 14. Much of the responsibility for equipping them with healthy bodies and minds, therefore, falls upon the schools, where the children spend many hours of their young lives."

### School Day Too Long.

Prof. Brooks asserted that the present school day is too long under the plans of running the school, but made it plain that it would be better to have longer hours under different conditions. He intimated that inadequate preparations are taken in many of the schools to prevent fatigue, not enough being devoted to diversions.

### Too Much Reading and Writing.

He declared there was too much reading and writing in the public schools, causing too great a strain on the pupils' eyes and constitutions. He also contended that there was too much writing in the lower grades. He mentioned that in St. Louis the pupils in these lower grades are taught to put letters together that are already printed, and thereby accomplish as much as by trying to write and do it without the strain that would be experienced by writing.

### Opposes Keeping Children In.

The speaker also opposed the plan of keeping children in after 4 o'clock to punish them. He based his opposition on four reasons: 1. the child at 4 o'clock is an unfit person to do further work, 2. the teacher at 4 o'clock is likewise an unfit person to do further work, 3. the school building at 4 o'clock is an unfit place for conducting more recitations that day.

He condemned keen rivalry as a serious factor in causing nervousness and worry that is detrimental to the pupil's health. Cultivate cheerfulness, happiness and good fellowship is the plan he advocated.

### More Fresh Air.

An earnest appeal was made to the teachers to insist on better ventilated school buildings, better equipment and greater cleanliness in the care of the rooms. It was shown that desks too high or too low might cause physical deformity that would be lifelong.

### Prof. Brooks advised the teachers to make a study of children and familiarize themselves with the symptoms of diseases or other defects which frequently prove a bar to good work by the pupils.

### Encouraging Steps.

After pointing out the bad conditions in the school system the superintendent mentioned the steps are being taken to encourage the educational world. Among these the inauguration of medical inspection in the schools, and the work of school nurses, who do not confine their efforts to the school room but reach into the homes.

### Prof. Brooks talked for a few moments regarding the work of the Texas State Teachers' association and solicited the membership of all who were not enrolled. He assured the teachers that the convention in Fort Worth would be a summer. Among the speakers will be the famous Dr. Puffer, who is doing much to solve the boy problem of today. He announced the topics on the program would be timely and pertinent.

### BUILDING PERMITS.

Building permits issued yesterday: P. G. Jones, repairing and remodeling house at 815 Earle street, cost \$280. W. E. White, five-rooms at 711 Rusk street, cost \$850. W. T. Curry, five-rooms, to cost \$1,800.

## IN THE LOCAL COURTS

NEGRO SUES I. & G. N. FOR INJURY TO HIS WIFE.

Falls When She Tries to Get Aboard a Train—Young Woman Charged With Mischief of Mail.

The International & Great Northern Railway company was made defendant in a suit filed in the Fifty-fourth judicial district court, Waco, by J. B. Collins, a negro of Lavaca county.

Collins asks for judgment in the sum of \$10,000, charging that his wife, Della Collins, sustained permanent injuries because of the negligence of the defendant and one of its train brakemen in not providing a safe place and proper means of embarkation to the train.

Plaintiff alleges that his wife bought a ticket in Waco for Palestine, February 14, 1912, and with a suit case in one hand and a grip in the other, she approached the place where the train was standing. When she started to mount the box in order to reach the steps the brakeman told her to "go on off from here," recited the petition, and a little later again prevented her from entering, telling her to go to the next car forward. Plaintiff says his wife then went to the next car, as directed; that the distance from the ground to the car steps was 30 inches, and that when the woman attempted to reach the step she slipped and fell, sustaining a wrenched back, sprained leg and sprained ankle. The petition recites further that the wife was confined to her bed two and a half months as a result of the fall, and "still suffers mental and physical pain," and is permanently injured. Plaintiff says his wife was able bodied and contributed toward making a living for the family until she was hurt, and claims that because of her disablement, together with the cost of suit and money paid out for relief, he is entitled to the amount asked for.

### IS HELD ON FEDERAL CHARGE.

Young Woman Is Charged With Misuse of the Mail.

Mrs. Jessie York, a young widow, was called before United States Commissioner A. P. McCormick yesterday afternoon, and her preliminary hearing was continued until September 11, when she will be given an opportunity to answer to the charge of misuse of the mails. Commissioner McCormick fixed her bond at \$300, and upon her failure to execute bail she was remanded to jail. The young woman's brother reached here yesterday afternoon and was with her when she was brought before the commissioner. He was unable to go on her bond. The brother walked with his sister to the prison doors, and there bid her goodbye.

Mrs. York was arrested in Coryell county by Deputy United States Marshal H. B. Butts, of Waco, for misuse of the mails in Kaufman county. The arrest was made on complaint filed by the post office inspector at Dallas.

### COUNTY COURT.

Kyle Webster was tried in county court yesterday on the charge of theft, and the jury returned a verdict of not guilty.

Complaint filed in county court yesterday charges Charlie Woods with aggravated assault. Will Montgomery is the complainant.

### MARRIAGE LICENSE.

Marriage license was issued yesterday to A. L. Bentley and Miss Ethel Currington.

### REBUILDING THE TRACKS.

Street Car Company Putting Improvements on Cotton Palace Line.

The street railway company is making rapid progress in the rebuilding of one of its double tracks from Eighth to Thirteenth streets on the Cotton Palace line. Practically the entire roadbed is ready for the steel and ties, and two blocks already have been laid. In extending this track 200 feet the company will be able to give better service to the patrons of the Cotton Palace, as a number of cars can be lined up immediately in front of the palace gates, thus facilitating the movement of the crowds. Heretofore the line now being rebuilt barely reached to the gates of the park.

Officials of the company daily expect notice that the eight double-track cars recently purchased have been shipped from St. Louis. With the arrival of these, there will be 32 cars in the local system.

### HUTCHISON FOR PUBLICITY.

Will Have Charge of the Cotton Palace Work This Year.

Asher Sanger, chairman of the advertising committee of the Cotton Palace, yesterday announced the appointment of J. J. Hutchison, who has been acting secretary-treasurer of Waco Typographical union No. 188, to be publicity director of the Cotton Palace. Mr. Hutchison has the interest of Waco and the fall exposition at heart, is enterprising, understands the way to get best results in a publicity campaign and is an all around good man for the place. He will assume his new duties in the next few days.

### QUICKSALL GETS REPORTS.

Heavy Production of Kaffir Corn Is Made.

J. L. Quicksall, special agent of the Department of Agriculture, with his headquarters in Waco, is receiving reports from western and southwestern counties of Texas, showing that 45 to 60 bushels of kaffir corn to the acre was made in some places. The large productions are due in a large measure to the excellent seed distributed by the Agricultural Department in twenty-eight counties last planting season. Comparative tests were made between kaffir and Indian corn and it was found that the kaffir produced 17-1/2 bushels more to the acre.

## AS TO A HOTEL HERE

WACO BUSINESS MEN HOLD A MEETING WITH VISITOR.

Major Trezevant Has Forwarded a Map Showing Six Sites Which Are Offered Him.

Major J. H. Trezevant of Houston, who has been here several days looking into the proposition of the Business Men's Club to give a bonus for a hotel, had a meeting yesterday with a number of the members of the Business League in the rooms on the seventh floor of the Amicable. E. W. Marshall, president of the club, presided.

Major Trezevant stated that he had a number of sites offered to him, but that no prices had been put on any of them; that he had made a map showing each of these and had forwarded it to the interests which are represented by him, and that they would probably have a meeting next week to discuss the matter. In the meantime he is going to Houston and will await information as to the prices that are offered him on each of the sites.

Bart Moore, who was present, stated that while he did not know the people who were represented by Major Trezevant, he knew the club, and he was satisfied that the people he is representing are fully able to carry out the hotel deal.

President Marshall stated that Mr. Watt would be willing to make terms on his property, and that he will furnish a big part of the money necessary to finance such an enterprise in the event the proper men take hold of it.

### RABBI WARSAW AT HOME.

Rev. Israel Warsaw, rabbi congregation Rodef Shalom, has returned after an absence of several weeks and announces that services will be resumed at the Temple Friday night. Dr. Warsaw first went to New York to visit his mother, and then to Colorado, from whence he was called back to New York on account of the serious illness of his mother. Upon her recovery he again went to Colorado, where he enjoyed a pleasant trip.

### RAILROAD TIME TABLE.

No. 51 leaves 6:15 a.m.  
No. 53 leaves 6:30 p.m.  
No. 52 arrives 9:45 p.m.  
No. 54 arrives 10:10 a.m.

## FOR CORN CLUB BOYS

PRIZES ARE OFFERED BY THE MERCHANTS OF WACO.

Attractive Premiums Will be Given by Waco Business Men This Year.

Two hundred and twenty-one boys in McLennan county will have corn exhibits at the Cotton Palace this fall that will demonstrate to the 75,000 visitors what can be done by improved methods of cultivation. The boys are divided among twenty-one clubs and competition will be keen. J. A. Pipkin, one of the local agricultural agents, is engaged in reorganizing the clubs, strengthening them and creating a greater interest in the work.

To give impetus to the best methods of corn raising, merchants of Waco have offered some attractive prizes to the boys. These will be in addition to the premiums offered by the Cotton Palace. The following agreement, signatures and merchants' premiums are of much interest:

Believing it to be a wise policy to encourage boys in the corn club work by offering special prizes attractive enough to stimulate greater effort in producing a larger yield per acre of corn in McLennan county in 1912, we, the undersigned, agree to contribute for the above purpose the amounts set opposite our names in cash or merchandise as stated to F. E. McLarty, custodian, on or before the award of the prizes at the Cotton Palace in 1912, under rules governing boys' corn club contests:

The Goldstein-Miguel Co., suit of clothes \$25.00  
Mistrot-Calahan Co., merchandise 10.00  
Sanger Bros., suit of clothes 25.00  
Herrick Hardware Co., 10-inch plow 15.00  
Garrett Hardware and Imp. Co., 50-tooth harrow 12.50  
The Tribune Co., 5.00  
R. G. Wright & Son, 10.00  
Central Texas National Bank, 10.00  
Tom Padgett Co., saddle 10.00  
Times-Herald, 2.00  
The Rotan Grocery Co., 10.00  
C. L. Johnson & Son, 5.00  
W. W. Seelye 10.00  
D. Hawtolf, one hat 2.00  
H. N. Hay 2.00  
McLendon Hardware Co., 25.00  
S. S. Fleming & Sons, trio barred Plymouth Rocks 25.00  
R. T. Dennis & Co., kitchen cabinet 15.00  
E. A. Muhl, one V. harrow 15.00  
B. L. Matthews Co., merchandise 5.00  
Connor Shoe Co., pair shoes 5.00  
Miller-Cross Co., pair shoes 5.00  
W. J. Mitchell, merchandise 5.00  
J. A. Loughridge, merchandise 5.00  
Wood Bros., Stetson hat 5.00

## Local News Notes

Fire Chief Prescott and Fire Commissioner Wright left last night for Palestine to see that city's fire engine to ascertain whether or not Waco should buy one like it. Mr. Prescott says that the purchase of the engine will likely be made this week.

At a meeting of the Cotton Palace directors last night plans were reviewed and everything found in splendid shape for the exposition. The directors expressed themselves as well pleased with the progress that has been made and with the general outlook. No new business was taken up last night.

## Personal Mention

J. W. Jones of Yorkum, is among the arrivals at the Metropole.

Earl Wells of Dallas, is in the city, registered at the Metropole.

L. A. Coulter of Dallas is here on business, stopping at the Metropole.

Howard D. Gregory and Harold Allen of Temple, were guests at the Metropole yesterday.

J. L. Penix, national bank examiner, headquarters at Fort Worth, is stopping at the New State House.

Hugh Hardin, traveling freight agent of the Illinois Central, headquarters at Dallas, was in Waco yesterday on business.

Miss Ada Thompson, one of the teachers of the East Side, is spending a week visiting friends at Walnut Springs and Morgan.

J. O. Long of Dallas, is among the arrivals at the New State House.

R. L. Dixon, cotton man from Liverpool, is visiting Waco, stopping at the New State House.

Mrs. Phil B. Jones and sons from Nashville, Tenn., are visiting relatives and friends in the city. At present they are with Mrs. R. T. Chapman, 1202 North Fifth street.

## Deaths and Burials

MRS. MINNIE McDANIEL. Funeral services over the body of Mrs. Minnie McDaniel, who died Tuesday, were held yesterday afternoon at the family residence, 1720 South Eleventh street. Rev. Dunn in charge. Interment was made at Oakwood. Mrs. McDaniel was 42 years of age. She is survived by her husband, William McDaniel, and two children.

### EARL COLEY.

Earl Coley, the nine-months-old child of Mr. and Mrs. A. B. Coley, died at 9 o'clock yesterday morning at Twenty-eighth and Grim. Funeral services will be conducted at 10 o'clock this morning, and interment will be made at Oakwood.

## INCREASE IN FORCE FOR FILTRATION PLANT NEW RULING PROTESTED

NEW WAYBILL SYSTEM CALLS FOR MORE WORKERS.

Wells Fargo Superintendent Was Visitor Here to Confer With Local Agent.

C. B. Kinne, division superintendent of the Wells-Fargo and Company's express, with headquarters in Tyler, spent yesterday in the city with Local Agent R. E. L. Montgomery going over the new system of billing and labeling that is being inaugurated.

Under an order made by the Interstate Commerce Commission the express companies are requested to inaugurate a system that will prevent overcharges and the collection of charges at both ends of the line. The companies have adopted a way bill that is made in triplicate with carbon. One of these copies is to remain in the office where the shipment originates, one is to be given to the messenger on the train and one is to be affixed as a label to the package itself. The new system will require an increase in the office force of the express companies throughout the country. In Waco it will require the employment of another man, and it was to talk this over with Mr. Montgomery that he spent the day in the city.

### ST. BASIL'S COLLEGE OPENS.

St. Basil's college opened yesterday morning with an enrollment of 45, of which number 15 were boarders. Father Gignac, president, is well pleased with the opening, which was characterized by a larger attendance than that of last year, and said last night that he expected the number of boarders to reach 60 before the end of the week. Yesterday was spent in matriculation and classes will begin this morning. The outlook for the present session is exceedingly bright.
